18
                       DIRECT EXAMINATION
19
   BY MR. WOOD:
20
        Q. Good morning, Officer Kennedy. How are you
21
   doing?
22
        Α.
            Good.
23
            Can you introduce yourself to the ladies and
24
   gentlemen of the jury, please?
25
        A. I'm Officer James Kennedy of the Houston Police
```

```
Department.
1
2
        Q.
            And, Officer Kennedy, how long have you been
   employed by the Houston Police Department?
3
             Thirty-five years.
4
        Α.
             Thirty-five years.
5
        Q.
6
                 Does that pretty much span your career in
7
   law enforcement?
        A. Yes, sir.
8
            Before joining HPD, tell me about your
        Q.
10
   education.
11
            I went to high school in Memphis, Tennessee.
12
   And then I went to the University of Alabama. I got a
   degree in criminal justice. And then I moved to
13
14
   Houston.
15
            So, as an Aggie, can you get past the Alabama
        Q.
16
   Aggie conflict?
17
            No. You are going to lose the game.
        Α.
            What year was it that you joined HPD?
18
        Q.
19
             1979.
        Α.
20
        Q.
            And did you go through the academy and the
21
   regular training to become a police officer?
22
        Α.
            Yes, sir.
23
            After you went through the academy, what was
```

25 A. I worked in patrol in northeast, in northeast

your first assignment at HPD?

```
1 Houston.
```

- Q. When did you start working as a patrol officer,
- 3 approximately?
- 4 A. June of '79.
- 5 Q. How long did you work in patrol?
- 6 A. About three years.
- 7 Q. And after patrol, what did you do?
 - A. I went to the Crime Scene Unit section.
 - Q. How long did you serve in the Crime Scene Unit?
- 10 A. Fifteen years.
- 11 | Q. And after that?
- 12 A. I went to family violence for eight years.
- Q. And where do you currently work out of?
- 14 A. I work at Intercontinental Airport.
- 15 | Q. Officer Kennedy, back in 1989, were you working
- 16 at the Houston Police Department?
- 17 A. Yes, sir.
- 18 Q. And in what capacity -- in what capacity were
- 19 you working back in '89?
- 20 A. I was in the Homicide Division in the Crime
- 21 | Scene Unit.
- 22 Q. And when you say Crime Scene Unit, can you just
- 23 educate us a little bit about what the Crime Scene Unit
- 24 | did back then when you worked with them?
- 25 A. We went to crime scenes and we would take

```
pictures, lift fingerprints, recover the evidence, tag
all that evidence. We made videos of the crime scenes.
```

- Q. And when you were asked to -- how was it that you were called out to a scene generally?
- A. The dispatcher would call us. A patrol unit would get a call to a scene and they would determine if they needed a Crime Scene Unit.
- Q. And would you work hand-in-hand with either officers there on the scene or homicide or whoever it was that was out there already working the case?
- 11 A. Yes, sir.

5

6

7

8

10

- 12 Q. I want to take you back to July 1st of 1989.
- 13 | Was that a time that you were working as part of the
- 14 | Crime Scene Unit?
- 15 A. Yes, sir.
- Q. Specifically, were you required or requested at that time to go out to a scene of 123 Winkler here in
- 18 Houston, Texas?
- 19 A. Yes, sir.
- Q. And is that location, 123 Winkler, is that a location in Harris County, Texas?
 - A. Yes, sir.
- Q. What was the nature of the call that you were dispatched to out at that --
- 25 A. A dead body had been found in a dumpster at the

```
1 apartment complex at that location.
```

- Q. And a Crime Scene Unit had been requested in response to that?
 - A. Yes, sir.

- Q. Do you recall approximately what time it was that you arrived on July 1st of '89?
- 7 A. It was about 7:38, 7:39 in the morning.
- Q. What did you do -- well, first describe
 generally the location there at 123 Winkler. What kind
 of location is that?
- 11 A. It's in southeast Houston. It's an older 12 neighborhood. The complex is an older complex.
- Q. And when you say "complex," is that the location of an apartment complex?
- 15 A. Yes, sir.
- Q. What did you do when you first arrived at the scene, Officer Kennedy?
- A. I met with the officer that was there to just
 get some basic information and then I would have started
 photographing the scene.
- Q. Was your attention directed towards the dumpster there on the complex?
- 23 A. Yes, sir.
- Q. When you went to that -- or when you went to that dumpster, what did you -- generally, what did you

```
find?
1
2
             The body of a Hispanic male had been placed in
   the dumpster.
3
            And at that point, you said that you would have
4
        Q.
   began photographing that scene?
5
        Α.
            Yes, sir.
6
7
                 MR. WOOD: Your Honor, may I approach the
   witness?
8
                 THE COURT: Yes.
             (By Mr. Wood) Officer Kennedy, I'm going to
10
11
   show you what's been marked for identification purposes
12
   as State's Exhibit 105, 106, 107, 108, 109, 110, 111,
   112, and 113. If you can take a minute and look at
13
   those and tell me if you recognize those (indicating).
14
            Yes, sir, I do.
15
        Α.
16
            What do you recognize those to be?
17
             Those are the prints of the photographs I took
        Α.
18
   at the scene that day.
            And do these photographs fairly and accurately
19
        Q.
20
   depict the scene that you responded to back on July 1st
21
   of '89 at 123 Winkler?
22
            Yes, sir, they do.
23
                 MR. WOOD: Your Honor, at this time I will
24
   offer State's 105 through 113 consecutively after
25
   tendering to defense counsel.
```

```
(State's Exhibit No. 105 through 113
1
2
                  Offered)
3
                 MR. CORNELIUS: We have a relevance
4
   objection at this point, Judge.
5
                 THE COURT: That will be overruled.
6
                 State's 105, 106, 107, 108, 109, 110, 111,
   112, and 113 will be admitted over objection.
7
                 You may proceed.
8
9
                  (State's Exhibit No. 105 through 113
10
                  Admitted)
11
                 MR. WOOD: Your Honor, permission to
12
   publish these?
13
                 THE COURT: Yes.
14
             (By Mr. Wood) Officer Kennedy, when you first
        Q.
15
   arrived out there, you said you found the body of a
16
   Hispanic male in that dumpster; is that correct?
17
        Α.
             Yes, sir.
18
             Did you do anything or did any other officer
   out at the scene do anything to remove the body or move
19
20
   the body in any way at first?
21
            No, sir.
        Α.
22
             Did you photograph that dumpster and the body
23
   as you found it?
24
        Α.
           Yes, sir.
25
             I want to show you State's Exhibit 106. Let me
        0.

enlarge that for you.

2
                 Tell the ladies and gentlemen of the jury
3
   what State's 106 shows.
            This is a photograph of the dumpster. There is
4
   a parking lot behind it and there is a car in the front
6
   on the left side. It's at the end of the covered
7
   parking area.
            And that dumpster would be contained within
8
        Q.
   that apartment complex, I guess?
10
            Yes, sir.
        Α.
11
        0.
            State's Exhibit 107. What does 107 show us
12
   (indicating)?
13
            This is a picture of the complainants' body in
        Α.
   the dumpster.
14
15
            Is that depicting where the head area is?
        Q.
16
        A. Yes, sir. And that blue thing is his shirt.

22
            Okay. And 108 (indicating).

23
            This is also the picture of the complainant

- Q. Okay. And State's Exhibit 109 (indicating).
- A. That's a photograph of the interior of the dumpster showing the entire body of the complaint.
 - Q. Officer, at some point while you were out there at the scene, was the body of the complainant removed from that dumpster?
 - A. Yes, sir. We would have removed it when the body car got there.
- 10 Q. When you say "the body car," what do you mean 11 by that?
 - A. A funeral home that would have been dispatched by the medical examiner's office to take the body to the medical examiner.
- Q. After the body of the complainant was removed, in State's Exhibit 110, is that a picture depicting that same dumpster (indicating)?
 - A. Yes, sir.
 - Q. And, I guess, obviously what would be found in a dumpster is trash and other items of garbage, but of note was there anything depicted in 110 that you, in fact, ended up tagging as possibly relevant in this case?
 - A. Some gloves, rubber gloves, plastic gloves.
 - Q. Are these depicted here in the top portion of

```
State's Exhibit 110 (indicating)?
1
2
            Yes, sir.
        Α.
            And did you tag those because you thought they
3
        Q.
   might have some relevance down the road?
5
        Α.
            Yes, sir.
            After the body of the complainant was removed
6
7
   from the dumpster, was it immediately taken to the
   medical examiner's office or the morgue or did you have
8
   an opportunity to photograph after it was removed?
10
            I may have photographed it while it was on the
11
   stretcher before they put -- after it left, it went
12
   straight to the medical examiner's office.
            I'm going to show you State's Exhibit 111.
13
        Q.
   What does that show us (indicating)?
14
            That's the body of the complainant laying on a
15
   sheet outside the dumpster.
16
            And State's Exhibit 112, specifically what is
17
        Q.
18
   that (indicating)?
19
            The right side of the complainants' body, his
20
   lower abdomen and upper thigh, his right arm. And there
21
   is a towel and a rope wrapped around it.
22
            And here on the complainant's -- right side of
23
   his body, is there a large abrasion, does it appear
24
   (indicating)?
25
        A. Yes, sir.
```

- Q. And finally, State's Exhibit 113. What does 2 113 show us (indicating)?
 - A. That's the complainant's body, specifically the area of his feet. And his feet are tied up with a towel.
 - Q. After the body was photographed there as depicted in those State's exhibits, what else did you do out there at the scene?
- 9 A. I would have gone and taken notes to make a

 10 scene diagram, checked around the area to make sure we

 11 didn't miss anything, and then I would have gone to the

 12 medical examiner's office.
- Q. And did you, in fact, do that in this case?
 - A. Yes, sir.

5

6

7

8

- Q. When you leave a scene like this and you go to the medical examiner's office, what was your purpose in doing so?
- A. We would take more pictures of any injuries,

 get fingerprints of the deceased, make a wound chart.

 And if there were any other examinations that we would

 be allowed to do, we would do those.
- Q. So, oftentimes you were called out as part of your duties as a crime scene officer to also follow up in this regard as well?
- 25 A. Yes, sir.

                 MR. WOOD: Your Honor, may I approach the
2
   witness again?
3
                 THE COURT: Yes.
             (By Mr. Wood) Officer Kennedy, I'm going to now
4
        Ο.
   show you State's Exhibits 113, 114, 115, 116, 117, 118,
5
   119, and 120. Can you take a look at those and tell me
6
7
   if you recognize those (indicating)?
             Yes, sir, I do.
8
        Α.
9
             What do you recognize those exhibits to be?
        Q.
             Those are photographs I took of the deceased in
10
11
   the medical examiner's office.
12
            And do they more specifically depict some of
        Q.
13
   the specific areas of the injury to the complainant?
14
        Α.
             Yes, sir.
15
            And do they fairly and accurately represent
   what you remember the complainant being like there when
16
17
   you photographed him at the medical examiner's office?
18
             Yes, sir.
        Α.
19
                 MR. WOOD: At this time, Your Honor, I will
20
   offer State's Exhibits 114 through 120 consecutively
21
   after tendering to defense counsel.
22
                  (State's Exhibit No. 114 through 120
23
                  Offered)
24
                 MR. CORNELIUS: Relevance objection, Judge.
25
                 THE COURT: Okay. That will be overruled.
```

```
State's Exhibits 114, 115, 116, 117, 118, 119, and 120
1
2
   are admitted over objection.
                 (State's Exhibit No. 114 through 120
3
                  Admitted)
 4
                 MR. WOOD: Thank you, Your Honor.
 5
                 Permission to publish?
 6
7
                 THE COURT: Yes.
             (By Mr. Wood) Officer Kennedy, I'm going to
8
        Q.
   show you State's 114. What does State's 114 show us
10
   (indicating)?
11
        Α.
             That's the toe tag that was placed on the
12
   deceased's toe.
13
        Q.
           Are you aware what any of these numbers mean on
   this in State's Exhibit 114?
14
15
             The 68 represents his height, the 137 is his
   weight, and the 89-4198 is the medical-legal number. In
16
17
   other words, he was the 4,198th deceased person to go to
18
   the medical examiner's office in 1989.
            And when you say the 68 and the 137, when you
19
        Q.
20
   say 68 indicates his height, what does that mean?
21
        Α.
          His height in inches.
22
             Okay. And the 137 would be in pounds?
        Q.
23
            Yes, sir.
        Α.
24
        Q.
            State's Exhibit 116. What does 116 show us
25
   (indicating)?
```

```
This is a photograph of the deceased laying on
1
   a morgue tray. It's from the waist up. It shows his
2
   face, his right arm. There is a tattoo of an "S."
3
        Q. Is that right here in the middle of State's
4
   Exhibit 116 (indicating)?
        A. Yes, sir. And then under it is like a face
6
7
   wearing a hat. And also his right arm has got some rope
8
   and a towel wrapped around it.
        Q. State's Exhibit 118. What does 118 show us
   (indicating)?
10
            118 is a photograph of the deceased's neck on
11
12
   the left side. It shows three ligature strangulation
13
   marks.
        Q. And is that indicated here in the middle of his
14
15
   neck (indicating)?
16
       A. Yes, sir.
17
        Q. State's Exhibit 119. What is that picture
18
   (indicating)?
19
            That's a picture of his right hand and the
20
   towel and rope wrapped arm it.
21
        Q. Is there also an abrasion on his right hand
22
   depicted in 119?
23
        A. Yes, sir.
24
        Q. And then finally, State's Exhibit 120. What is
25
   shown in 120 (indicating)?
```

- A. That's the deceased's feet with a toe tag, socks, a towel wrapped around his feet, and it looks like some black wire.
- Q. Are you indicating what is in the bottom half of the picture?
- 6 A. Yes, sir.
- Q. Would you characterize that as wire or some kind of electrical cord possibly?
- 9 A. Yes, sir.
- Q. Other than photographing the complainant's body at the morgue that day on July 1st, what else did you do while you were there?
- A. Took his fingerprints, took pictures. That would be it.
- Q. What was the purpose in taking fingerprints at that point in the investigation?
- A. Well, so if we had recovered fingerprints from
 the scene, we would have his fingerprints to compare
 them by. And also, so the Identification Division, they
 can go through the fingerprint records. And if he has a
 criminal history, they can identify him.
- Q. And so, one goal in this is trying to help identify who that person is; is that right?
- 24 A. Yes, sir.
- 25 Q. After you left the medical examiner's office

```
that day, what did you then do involving this case?
1
2
        A. I would have gone back to the office, did the
   report, and tagged all of the evidence.
3
        Q. And would that pretty much conclude your
4
   involvement in this investigation?
6
        A. Yes, sir.
7
                 MR. WOOD: Your Honor, at this time, I will
8
   pass the witness.
                 THE COURT: Thank you, Mr. Wood.
10
                 Mr. Cornelius, do you have any questions?
11
                 MR. CORNELIUS: May I have a moment, Judge?
12
                 THE COURT: Okay.
13
                 (Pause)
14
                 MR. CORNELIUS: We pass the witness, Judge.
15
                 THE COURT: Thank you.
16
                 May this witness be excused?
17
                 MR. WOOD: No objection.
18
                 MR. CORNELIUS: No objection.
19
                 THE COURT: You may be excused.
20
                 THE WITNESS: Thank you.
21
                 THE COURT: State, call your next.
22
                 MR. WOOD: The State calls Tina Longoria
23
   Perez.
24
                 THE BAILIFF: The witness has been sworn,
25
   Your Honor.
```

```
1
                  THE COURT: Thank you.
2
                 Ma'am, please keep your voice up and speak
3
   directly into the microphone.
                  You may proceed, Mr. Wood.
4
5
                 MR. WOOD: Thank you, Your Honor.
6
                       TINA LONGORIA PEREZ,
7
   having been first duly sworn, testified as follows:

15
16
             If you don't mind me asking -- it's one of

17
   those questions I'm not supposed to ask, but how old are
18
   you?
19
             Forty.
        Α.
20
        Q.
             Okay. Did you go to school -- did you grow up

2
        Α.
            Yes.
            Ms. Longoria -- Ms. Perez, I want -- you were
3
        Q.
   Ms. Longoria before. Is that your maiden name?
4
            That is my maiden name.
5
6
            Ms. Perez, I want to take you back a long time,
   back to some time around 1989. Would you been around
7
   16, thereabouts?
8
        A. Yes.
            Where were you -- what was your situation then?
10
11
   Where were you living?
12
        A. I lived -- at that time, I was living with my
   parents. I lived behind the Barnett Stadium in, I
13
   quess, the southeast side of town.
14
        Q. Is that over there kind of Telephone and the
15
16
   610 area?
17
        A. Yes, Telephone and 610 area.
18
          And were you in school at that time?

20
        Q.
            Tell me what was going on in your life back

22
   time?
23
          A bad time.
24
        Q. Describe that for the ladies and gentlemen of
```

the jury. What do you mean?

- 1 A. I had separated from my husband at that time.
- 2 And I met up with an old friend and I got mixed up with
- 3 | the wrong people.
 - O. Who was that old friend?
- 5 A. Her name was Elizabeth Ramos.
- 6 Q. And at that point, you said you had separated
- 7 | from your husband. Are you talking about the husband
- 8 that you are still with today?
- A. Yes.
- 10 Q. Did you guys have any -- had you had any of
- 11 your kids together at that point?
- 12 A. Yes. We had two.
- Q. And those would, I guess, be your two oldest
- 14 kids.

- 15 A. Right.
- 16 Q. How old were they around that time?
- 17 A. One was two. The oldest was two. And the
- 18 second one was like about a year old.
- 19 Q. Was that area -- that period of time,
- 20 | Ms. Perez, and an area of time that you are proud of?
- 21 A. No, not proud at all.
- 22 Q. And why was that? When you said you met up
- 23 | with Elizabeth and you guys got involved in some stuff,
- 24 | what kind of stuff?
- 25 A. Drugs.

- Q. How did that happen? How did that start?
- 2 A. Being with friends, hanging out with people
- 3 | they knew, partying, whatnot.
- Q. Was that something that was an area of conflict
- 5 for you and your parents?
- 6 A. Yes.
 - Q. Who was this Elizabeth Ramos?
- 8 A. She was a girlfriend of Obel's.
- 9 Q. And how did you -- do you remember how you
- 10 | first met Elizabeth or how your friendship started with
- 11 | her?

- 12 A. I had met her in school. She was someone I
- 13 went to school with in elementary.
- 14 Q. And then you guys kind of reconnected?
- 15 A. Yes.
- 16 Q. Where would you and Elizabeth get your drugs?
- 17 A. She would get them from him.
- 18 Q. And "she" being Elizabeth?
- 19 A. Yes. Elizabeth would get them from Obel.
- 20 Q. When you say Obel, do you know that person as
- 21 | Obel Cruz-Garcia?
- 22 A. Yes. Back then, I knew him as Obel.
- 23 Q. Because of that connection, would you sometimes
- 24 have an occasion to hang out or be in the same -- or be
- 25 | in contact with the person you've described as Obel?

A. Yes.

- 2 Q. And would you say that that -- the main purpose
- 3 that you would have contact with him would be for the
- 4 drug connection?
- 5 A. Not him in particular, but the person that he
- 6 had doing his business, yes.
- 7 Q. Well, Ms. Perez, I know it's probably been a
- 8 | long time since you have had to talk or deal with this.
- 9 Is that right?
- 10 A. Yes.
- 11 Q. And fair to say has it been a long time since
- 12 you have seen any of those people that you had contact
- 13 | with back in that life?
- 14 A. Yes. Because when I walked away, I walked away
- 15 | not to turn back to it. Just walked away from it.
- Q. Ms. Perez, do you see the person that you have
- 17 described as Obel here in the courtroom today?
- 18 A. Yes.
- 19 Q. And can you please point to him and identify
- 20 | something that he's wearing so we know who you are
- 21 talking about?
- 22 A. The guy in the gray suit with the ear phones on
- 23 his head.
- 24 MR. WOOD: Your Honor, may the record
- 25 reflect that she has identified the defendant?

```
THE COURT: The record will so reflect.
1
2
             (By Mr. Wood) So, back when you had contact
   with the defendant -- this is around the time of 1989
3
   timeframe -- how often would you say that you and
4
   Elizabeth would see him?
             I would say maybe on a weekend basis, maybe.
6
7
             On weekends or a weekly basis?
        Q.
             On a weekend basis, I would say.
8
        Α.
9
            You said Elizabeth was a girlfriend of his?
        Q.
10
        Α.
             Yes.
11
            What do you mean by that?
        Q.
12
             She was his -- I guess you could say his fling.
        Α.
   That was his little sidekick.
13
            And through the defendant and Elizabeth, did
14
        Q.
15
   you also have an opportunity to get to know other
16
   associates of the defendant?
17
        Α.
          Yes.
18
             Do you remember any of those names or any of
   those individuals you would also have contact with?
19
20
        Α.
            Yes.
21
            What were those names, if any, that you can
22
   remember?
23
           Back then, Shorty. There was one by the name
24
   of Shorty. There was Rudy, Saul, and a guy named
25
   Robert, but his real name was Leo.
```

```
MR. WOOD: Your Honor, may I approach and
1
2
   get some evidence?
3
                 THE COURT: Yes.
             (By Mr. Wood) Ms. Perez, I'm going to show you
4
        Ο.
   State's Exhibit 83. State's Exhibit 83, is that how you
   remember the defendant back in that time (indicating)?
6
7
        Α.
            Yes.
            And what about State's Exhibit 85, who is that
8
        Q.
   person (indicating)?
            That's his cousin. I believe it was his
10
11
   cousin.
            That was like his right-hand man.
12
            And what was his name?
        Q.
13
        Α.
            Rudy.
            Did you ever know the person shown in State's
14
        Q.
15
   Exhibit 84? Is that anyone that you recognize?
16
            No. I've never seen him before.
        Α.
17
           Not during that time?
        Q.
18
        Α.
            No.
19
            When you said that -- you described Rudy as
        Q.
   kind of his right-hand man. What do you mean by that?
20
21
   Describe what you meant by that.
22
        Α.
            Everywhere he was, he was. They were
23
   inseparable.
24
        Q. Did those individuals you identified, Rudy and
25
   the person named Shorty and Saul, did they -- were they
```

```
friends of the defendant or how -- what would you
1
   characterized their relationship with the defendant?
2
3
             I would say they were like his dealers, I
4
   quess.
             So, they dealt drugs for him?
5
        Q.
6
        Α.
             Uh-huh.
7
             Do you know what kind of -- was it cocaine or
        Q.
   anything --
8
        Α.
             Cocaine.
10
             Is that what you and Elizabeth would buy from
        Q.
11
   him?
12
             Yes.
        Α.
             Who would y'all deal with directly in getting
13
        Q.
   your drugs typically?
14
             I dealt with Shorty.
15
        Α.
16
             In that whole group of individuals, was there
        Q.
17
   anybody you felt was kind of in charge or the boss?
18
        Α.
             Obel.
19
             Why do you say that?
        Q.
20
        Α.
             Because he would be the one to call the shots.
21
   Just the way he would speak and how he carried himself,
22
   it was like he was the person in control.
23
            And you said that you dealt with Shorty some as
24
   someone that you bought from. Who was this person that
25
   you called Saul?
```

- A. He was a young kid. He was one -- I guess a new person they had recruited. He was a young guy and he also helped.
 - Q. At some point in time, Ms. Perez, did you learn something happened to Saul?
 - A. Yes.

5

6

7

8

19

- Q. And how did that come about? How did you learn of that?
- I learned about it because I had went to his apartment to look for Shorty to go grab some drugs. And 10 11 the door was open to that apartment. I happened to walk 12 in there and I asked for him. I shouted out his name. 13 Shorty never came out. So, when I glanced towards the bedroom, I glanced towards the restroom, I seen a body 14 15 in the tub. So, when I seen the body, I kind of froze, I freaked out, and I ran out of there, never to turn 16 17 back to say anything. Later I ran into the defendant 18 here --
 - Q. Let me stop you because I have to ask the next question. And we'll get to that.
- I want to take you back a little bit about what you said. You said that you had gone to an apartment. What -- describe that apartment or what you mean by that.
- 25 A. I went to -- they were called the Winkler

```
Apartments, I believe. I went to Apartment 94. I went there to get some drugs from Shorty. And I happened to walk in there. The door was open. I walked in that
```

- 4 apartment, calling out his name. He never answered. I
- 5 | walked a little bit towards the hallway and I glanced
- 6 towards the bedroom. I didn't see anything. I glanced
- 7 towards the bathroom and I seen a body in the tub.
- Q. Was that an apartment that you were familiar
 with?
- 10 A. I would just go there to get drugs.
- Q. Okay. And did you think that -- had it been an apartment that you had been to prior to that day that you saw the body?
- 14 A. Yes, I had been there prior to that.
- Q. And had you been there several times or a few times or can you remember?
- A. No, I can't remember, but I remember going
 there prior to that time walking in there and seeing
 what I had seen.
- Q. Was that apartment an apartment that you thought someone actually lived in or do you know?

23

- A. There was -- I knew that guy was there, that Shorty was there, but, I mean, there was no furniture or anything in that apartment, so...
- 25 Q. Was it kind of an apartment that they may have

```
just dealt out of?
1
2
        Α.
             Yes, I believe so.
            And your purpose in typically going there was
3
        Q.
4
   not to really hang out, it was to buy drugs?
             Right.
5
        Α.
             And this apartment was a place where you had
6
7
   previously met up with Shorty at?
8
        Α.
             Yes.
             On that day that you went in, you said the door
9
        Q.
10
   was open?
11
        Α.
             Right.
12
            And did you just knock and go ahead --
             I knocked and I yelled for his name. And he
13
        Α.
   never answered, so I took it upon myself to walk in.
14
15
   And as I walked towards the little hallway there, I was
16
   still yelling out his name. I look towards the bedroom,
17
   I didn't see anything. I just seen stuff scattered
18
   everywhere. And I glanced towards the bathroom and I
   seen a body in the tub.
19
20
        Q.
            When you say that you noticed some stuff
   scattered, what do you mean by that?
21
22
             Like clothes, you know, just things were
23
   scattered, like just -- I mean, I don't know how to
24
   describe it to you. It's been such a long time. It was
   just like -- basically, like if you ransacked something
25
```

```
or like there is stuff scattered everywhere. That's how
1
2
   that looked.
             So, a little out of place?
3
        Q.
        Α.
            Right.
 4
             Other than that, before you saw the body in the
5
   tub, was there anything out of the ordinary about that
6
7
   day and when you went in that apartment?
8
        Α.
            No.
             Tell me, when you first saw that body in the
        Q.
   tub, what did you do?
10
11
             I kind of froze for a minute. Then I froze and
12
   I panicked and I got out of there because I knew
   basically if I got caught there, I probably would end up
13
14
   the same way.
15
             What do you remember about that body?
        Q.
            He was upside down in the tub and he was bound,
16
17
   like he was tied. His hands were tied to the back of
18
   his head -- I mean to the back of his -- to the back, to
   his back. And his feet, he was like bounded, like
19
20
   face-down.
21
            Could you tell anything about that body? Did
        Q.
22
   you recognize anything about who that person was?
```

24

25

I kind of -- when I froze, I kind of glanced at it and I recognized like who it was. And I just -- I left from there. I left.

- Q. Who was that?
- 2 A. Saul.

7

8

- Q. And is that the same person as you've described in your testimony as being someone that you knew dealt drugs for the defendant?
- 6 A. Yes.
 - Q. When you ran from there, what did you do?
 - A. I got back in the car with my friend and left from there. And just not to say nothing or anything. I just left from there. I was just puzzled. I didn't know what to do or say. I just -- I freaked out,
- 11 know what to do or say. I just -- I freaked out,
- 12 basically. I was 16 years old.
- 13 Q. Was that friend Elizabeth?
- 14 A. No. It was another person I was with at that 15 time.
- 16 Q. Okay. At some point after that, did the police 17 come and talk to you?
- 18 A. Yes.
- Q. And did you tell them what you -- what had happened --
- A. What I had seen. I told them what I had seen.
 I don't know how many months later after I had seen the
 dead person in the tub, the detectives came out and
 spoke with me. And I explained to them what I had seen.
 Like I said, it's been so long, 24 years ago. We spoke

```
briefly, but I remember what I had seen. That hadn't
1
2
   gone anywhere.
            Ms. Perez, after that day that you saw Saul's
3
        Q.
   body there in the tub, I mean, did you maintain this
   life-style that you were leading then for a long time or
5
   did you change?
6
7
            No. I changed. I changed my life.
        Α.
   I started going back to school. I started, you know,
8
   trying to get myself back to where I needed to be.
   After that, I pulled away from all these people. I
10
11
   pulled away completely. I cut everybody off. And I
12
   ended up leaving to Florida with my children to get away
   from everything. And then I came back in '90,
13
   February of '90, I believe. I came back to Houston.
14
15
   And just -- I never communicated with these people
16
   anymore, I never dealt with them anymore, and I just
   left it at that.
17
18
            After that day that you saw what you saw in
   that apartment, did you have -- did you ever see the
19
20
   defendant or Shorty or Rudy ever again?
21
            No -- yes, I did. I take that back. Yes, I
        Α.
22
   did. I did see them again.
23
            Tell me, who did you see after that?
        Q.
24
        Α.
            I ended up seeing them three. I was asked if
```

I -- he had heard that I had spoken with the police.

```
Obel had told me that -- for me not to say anything --
1
2
   that I didn't see anything and not to say anything. And
   I just left it at that.
3
        Q. Where was it that you had contact with him that
4
   he said this?
            I want to say it was at -- I can't remember if
6
7
   it was at their location where they were at down the
   street from where I lived or a corner store where I had
8
   seen them, but I remember seeing -- speaking with them
   and I was asked that question and...
10
11
           You were asked if you had talked to the police?
12
            Yes. They had heard that I had spoken with the
   police. And he said to me to be quiet, not to say
13
   anything, that I didn't see anything, and that's how I
14
15
   left it (indicating).
16
        Q. And describing that, Ms. Perez, you just put
   your finger up to your lips. Was that a gesture that
17
18
   the defendant himself made?
19
        Α.
            Yes.
20
        Q. And was that while he was telling you what he
   told you?
21
22
        Α.
            Yes.
23
            What did you take from that, all of that, or
24
   what did you think?
```

25 A. I feared for my life after that.

```
Did you say anything else after that?
1
        Q.
2
        Α.
             No.
3
             Was it many, many years until -- later that you
        Q.
   had to finally talk to somebody about that?
4
5
        Α.
             Yes.
6
             And when was that approximately?
             When I finally said something, when I spoke
7
        Α.
   with y'all, it was back in July.
8
        Q.
             And that was July of last year?
10
        Α.
             Yes.
11
        Ο.
             Did it kind of come as a shock to you when we
12
   showed up on your doorstep to talk to you?
13
        Α.
            Yes.
14
        Q.
             Thank you, Ms. Perez.
                 MR. WOOD: Judge, I will pass the witness.
15
16
                 THE COURT: Thank you, Mr. Wood.
17
                 Mr. Cornelius, you may proceed.
                 MR. CORNELIUS: May I have a moment, Judge?
18
19
                  THE COURT: Yes.
20
                  (Pause)
21
                 MR. CORNELIUS: May I proceed?
22
                 THE COURT: Yes.
23
                        CROSS-EXAMINATION
   BY MR. CORNELIUS:
24
25
            Ms. Perez, my name is Skip Cornelius. You and
        Q.
```

```
1
   I have never met or talked about this case, or anything
2
   else, have we?
3
            No.
        Α.
           You did meet with the defense investigators,
4
        Ο.
   though, correct?
6
        Α.
          Yes.
7
            Tell me about Shorty. Who was Shorty?
        Q.
            Shorty was someone that worked for Obel or that
8
        Α.
   would drug deal for him.
10
            Okay. And do you remember his name?
11
        Α.
            Faustino. Faustino was his name. Cervantes,
12
   or something like that, I believe.
13
            The best you can recall, Cervantes?
        Q.
14
            I believe so. I didn't know his real name back
   then. I only knew them by their nicknames.
15
16
          You knew his nickname was Shorty?
        Q.
17
            Right. I only knew him by Shorty. And he went
18
   by Harvey, or something like that.
19
        Q. All right. And you knew him because you bought
   drugs from him?
20
21
            Yes.
        Α.
22
            Okay. And those drugs, did you sometimes sell
23
   those drugs yourself?
24
        A. No.
```

Q. You just took the drugs?

- Yes. Well, yes, I would buy some from him. Α.
- 2 Okay. Now, what was Shorty like? Q.
- Α. He was an older person. He was older than 3 Obel. He was -- I would say he was older than all of them in the circle there.
- Did you say to the investigators that you --6 7 that he was a scary person and looked mean?
 - He did look scary. He looked scary. Maybe Α. just because of his appearance, the way he carried himself, but he did look scary.
 - Q. He was older, a little scary in appearance?
- 12 Α. Right.

5

8

10

11

16

17

18

19

20

- 13 Q. What about weapons? Did he have weapons?
- At times they had -- you would see them every 14 15 now and then with a gun or something like that.
 - What about in that apartment? Q.
- I don't remember seeing any weapons in that apartment. I went there to that apartment to go buy drugs and that person wasn't there. So, I happened to go there at the wrong -- I mean, be there at the wrong time, I guess you could say, because I happened to see 22 what I seen.
- 23 Did you say to the investigators, when they 24 came to talk to you, that every time you walked into 25 Shorty's apartment guns were laying around and you were

```
afraid of Shorty? Did you say that?
1
            No, I don't recall saying that.
2
            Okay. When you say you don't recall, is it
3
        Q.
   possible you said it and you just don't remember, or are
   you saying that --
6
            It could be. I mean, it was 24 years ago.
7
   was 16 years old. So, I couldn't really tell you if
   that was something that was said back then or -- I know
8
   it wasn't said recently.
            Okay. The conversation that I'm talking about
10
11
   was with Investigator J. Areola on June 21st, 2013 at
12
   2:41 p.m. at 8600 Fagan Street. Do you remember having
   that conversation?
13
14
        Α.
            Yes.
15
            Okay. In that conversation -- and I know you
        Q.
16
   are being asked to remember things that happened 25
   years before.
17
18
        A. Right.
            But did you not say to that investigator that
19
        Q.
20
   when you went to the apartment there were guns there and
21
   you were afraid?
22
            They had -- yes, they did have -- I just said
23
   they had weapons. Yes, they did.
                 MR. CORNELIUS: All right. I will pass the
24
```

witness at this time, Judge.

```
1
                 THE COURT: Anything further?
2
                 MR. WOOD: Just briefly, Your Honor.
3
                      REDIRECT EXAMINATION
   BY MR. WOOD:
4
            Ms. Perez, did you personally ever observe or
5
   know of any conflicts between Shorty and Saul?
6
7
            No.
        Α.
             Any argument or disagreements?
8
        Q.
9
        Α.
            No.
10
             Did you personally observe or did you know,
11
   based on what you know, of any disagreements or
12
   arguments between Saul and the defendant, Obel
   Cruz-Garcia?
13
14
        Α.
            No.
            Do you know of any conflicts?
15
        Q.
16
            No.
        Α.
17
             Okay. And back during that time, Elizabeth,
18
   your friend that you testified about, she was kind of
19
   seeing Obel Cruz-Garcia on the side, you said?
20
        Α.
            Right.
21
             Was there any issue between Saul and Elizabeth
22
   and the defendant that you knew of?
23
        Α.
            No, no.
24
                 MR. WOOD: I have no further questions,
25
   Your Honor. I pass the witness.
```

```
MR. CORNELIUS: Nothing further at this
1
2
   time.
3
                 THE COURT: May the witness be excused?
                 MR. WOOD: No objection.
 4
                 MR. CORNELIUS: As long as she's on-call
5
6
   and we can get her if we need her.
7
                 THE COURT: All right. Ma'am, you are
   excuse subject to recall. You may step down.
8
                 THE WITNESS: Okay. Thank you.
10
                 THE COURT: Thank you.
11
                 Please call your next.
12
                 MR. WOOD: The State calls Johnny Lopez.
13
                 THE COURT: You may proceed, Mr. Wood.
14
                 MR. WOOD: Thank you, Your Honor.
15
                         JOHNNY LOPEZ,
   having been first duly sworn, testified as follows:
17
                       DIRECT EXAMINATION
   BY MR. WOOD:
18
19
            Good morning, Mr. Lopez.
        Q.
20
        A. Good morning.
21
        Q.
          How are you?
22
        A. Fine.
23
        Q. Good.
24
                 Can you introduce yourself with your full
25
   name for the jury, please?
```

```
1
             Johnny Lopez.
        Α.
2
        Q.
             And, Mr. Lopez, do you live here in Houston?
3
             Yes, sir.
        Α.
             Are you pretty much a Houston native?
 4
        Ο.
5

19
             Tell me a little bit about your background.
        Q.
20
   Did you go to school here in Houston?
21
             Yes. I went to DeZavala Elementary. And then

what did you then do?

```
I went to the service for four years.
1
2
             And how long were you -- you said you served
        Q.
   for four years?
3

10
11
                 THE COURT: Let me stop you.
12
                  Sir, do you have gum in your mouth?
13
                 THE WITNESS: Yes, ma'am.
14
                 THE COURT: Can you spit that out, please?
15
                 THE WITNESS: Sorry about that.
16
                 THE COURT: Thank you.
17
                 You may proceed.
18
             (By Mr. Wood) Do you remember what year it was
        0.
   that you got out of the Army?
19
             '83, 1983.
20
        Α.
21
             And were you honorably discharged?
        0.
22
        Α.
             Other than honorable.
23
        Q.
             Say that again.
            Other than honorable.
24
        Α.
25
             Okay. And what did you do after you got out,
        Q.
```

```
after you were discharged?
1
2
           Well, I went to work. I got in trouble.
   sorry. I went to work and then I got in trouble. And
3
   then I was out on the streets for a little while.
            What path did your life take, Mr. Lopez, after
5
        Q.
   you got out of the Army? Did --
6
7
            Well, what happened, my dad had passed away and
        Α.
8
   I had just -- you know, just forgot about everybody,
   just wanted to be left alone and went a little on the
10
   wild side.
11
        Q. Did it lead to some drugs?
12
            Yes. I was on some drugs for a little while.
            And did that life-style lead to kind of a life
13
        Q.
   of you being in and out of jail during that time?
14
15
            Yes. Being in jail, incarcerated a few times.
        Α.
            That was both the county jail and also prison,
16
        Q.
   was it not?
17
18
        Α.
            Yes, sir.
19
            Did you receive multiple convictions over that
20
   period of time for theft and possession of a controlled
21
   substance and offenses such as that?
            Yes, sir.
22
        Α.
23
            And were you in and out of the county jail and
24
   incarcerated; is that right?
```

25 A. Yes, sir.

```
Is that a period of your life that you are
1
        Q.
2
   proud of, Mr. Lopez?
             Oh, no.
3
        Α.
            Has Lupita kind of helped put you on the right
4
   path?
5
6
             Oh, yeah, a whole lot. I have been away from
7
   all of that for quite a while already.
8
        Q.
             Does she keep you pretty close in check?
9
        Α.
             Oh, yeah. Yeah.
             Back during that time, did you have periods of
10
        Q.
11
   time where you were in and out of having a stable home?
12
            At what time?
        Α.
            Back during say -- specifically, 1989, what was
13
        Q.
   going on in your life during that time?
14
             I was like in the streets off and on, lived
15
16
   here and there.
17
             Did you ever have an opportunity to get to know
        Q.
18
   a person name Saul Flores?
19
             Yes, sir. I knew him for a little while.
        Α.
20
        Q.
             How did you know Saul?
21
             From the streets.
        Α.
22
             Would you have considered Saul a friend?
        Q.
23
        Α.
             Yeah. He was a nice little friend of mine.
24
        Q.
             And was he -- how old was Saul generally?
```

When I met him, he was about 17 or 18 years

25

Α.

```
old. He was very young.
1
2
        Q. Would you say that -- I mean, was your
   friendship or your relationship with him always just a
3
   friendship?
4
        A. It was a friendship. We talked a lot about,
   you know, personal stuff, you know. Yeah. We were
6
   pretty good friends.
7
        Q. So, you came to know him over a period of time.
8
   Is that fair?
        A. Yeah, for a little while.
10
        Q. How long would you say that you knew Saul as a
11
12
   friend?
       A. I don't know. I would say probably maybe close
13
14
   to a year, maybe.
        Q. And at some point, Mr. Lopez, did you learn of
15
16
   Saul's passing?
17
            I learned about that when I was in jail.
        Α.
18
        Q. And how did you learn about that?
19
            Some detective came and talked to me about it.
        Α.
20
        Q. And that was while you were incarcerated in the
   Harris County Jail?
21
22
        A. Yes, sir.
23
            And is that the first that you learned that
24
   your friend Saul had died?
```

A. That was the first that I learned, yes.

Did the investigator that came and talked to
       Q.
   you, did they come and -- were they just wanting to know
   if you had any information or if you knew of anything?
            Yeah. They asked some questions about him, how
       Α.
   long I knew him, some stuff, other things like that.
   They showed me some pictures of him and some other
   people.
       Q. Were they also hoping to try to locate Saul's
   family?
            Well, they asked me if I knew any family and I
   didn't know of his family here in Houston or -- I just
   know he was from Mexico.
       Q. After they talked to you and came and visited
   with you there in the jail, did you have any other
   involvement in his case or the investigation of his
   death?
       A. No kind. No kind.
            Was it many, many years until you talked about
        0.
   that situation again?
       Α.
            It was a long time, a long time.
            Was that when we showed up and visited with you
        0.
   about it?
23
       A. I heard about it again from yourself.
                MR. WOOD: Your Honor, may I approach the
   witness?
```

THE COURT: Yes.

- Q. (By Mr. Wood) Mr. Lopez, I'm going to show you what's been marked for identification purposes as State's Exhibit 22 -- I'm sorry -- 122. You know, I visited with you and told you there would be a point in trial that I would have to show you a picture of Saul; is that right?
 - A. Right.
- 9 Q. And -- or show you a picture and ask you if you 10 recognize that.
- 11 A. Yes, sir.

- Q. And I just want you to take a minute and just turn that picture over and let me know if you recognize that individual in State's Exhibit 122.
- A. Yes, sir.
 - Q. And who is that individual?
- 17 A. That's Saul, my little friend.
- Q. Back during that time when you -- when you were hanging with -- hanging out with Saul and you guys were friends, did you know a lot of his other friends or associates from the streets?
- A. Not really. Just that person he -- he was talking to me about some things that happened before I got locked up.
- 25 Q. Did you ever have an opportunity to meet or

```
come into contact with Obel Cruz-Garcia?
1
2
        Α.
            Yeah. I seen him around.
3
            And when you say "him," do you see that person
        Q.
   here in the courtroom?
          Yes, sir.
5
        Α.
 6
          And do you recognize him?
        Q.
7
        Α.
            Yes, sir.
        Q. Can you identify who you are talking about by
8
   identifying something they're wearing?
10
            He is sitting right there in the blue shirt
11
   with the headphones on.
12
                 MR. WOOD: Your Honor, if the record would
   reflect he also has identified the defendant.
13
14
                 THE COURT: The record will so reflect.
15
             (By Mr. Wood) Mr. Lopez, did you have any
        Q.
16
   personal dealings with the defendant?
        Α.
17
            No.
18
            Did you visit -- was there occasions where you
19
   would visit with Saul about his connection to the
   defendant?
20
21
        A. He used to tell me to go over there and work
   for --

23
                 MR. CORNELIUS: Objection. Hearsay, Your
24

25
                 THE COURT: Please don't say what other

persons have told you. Okay, sir?
1
2
                 That's sustained.
             (By Mr. Wood) And, Mr. Lopez, without going
3
        Q.
   into what Saul might have told you about the defendant,
   did you guys have occasions to talk about the defendant?
5
             Oh, yeah.
6
        Α.
7
            Mr. Lopez, again, you can't go into anything
        0.
8
   that was said to you --
        Α.
            Right.
9
             -- but based on -- were you aware of any
10
11
   problems that Saul was having with the defendant?
12
        Α.
             Yeah, he was having problems.
                 MR. CORNELIUS: Objection. Unless he
13
   somehow demonstrates that it's not hearsay. I don't
14
15
   know how else he can know it, unless he observed it.
16
                 THE COURT: Do you have any personal
               Did you personally observe --
17
   knowledge?
18
                 THE WITNESS: Yes, I did.
19
                 THE COURT: You may proceed then.
20
        Q.
             (By Mr. Wood) And what was the nature of that?
21
             Well, Saul would be outside talking on the
        Α.
22
   street on the sidewalk and he was always looking around.
23
   When they would come around in the car, he started
24
   running.
25
             So, based on what you observed -- when you say
        0.
```

```
1
   "he would start running," who are you talking about?
2
            Saul, my little friend.
3
            So, based on your perceptions, did you -- what
        Q.
   did you take from that?
4
5
           He was running from someone.
6
            And was that -- in that situation, would the
7
   defendant -- would that be a person that would be coming
   that you thought Saul was running from?
8
        A. Yeah.
10
                 MR. WOOD: I will pass the witness, Your
11
   Honor.
12
                 THE COURT: Mr. Cornelius.
13
                 MR. CORNELIUS: Just a moment, if I might,
14
   Judge.
15
                 (Pause)
16
                        CROSS-EXAMINATION
   BY MR. CORNELIUS:
17
18
            Mr. Lopez, my name is Skip Cornelius. We've
   never met or discussed this case or anything else
19
   before, have we?
20
21
           Never.
        Α.
22
            Do you remember talking to the police about
23
   this back in 1989?
24
        A. Yes.
25
        Q. Did you tell the police back in 1989 that your
```

```
friend was actually running from Shorty?
1
2
        Α.
            Never said nothing like that.
3
          You never said that?
        Q.
 4
        Α.
          No.
5
        Q.
          Okay.
6
            Or that I can remember. I don't even know -- I
7
   ain't going to say nothing, whatever you asked me.
            Okay. Now, you remember talking to the police,
8
        Q.
   though?
10
            Yeah, somewhat.
11
        Q. Do you remember that it was an officer named
12
   R.E. Gonzalez --
13
        A. I don't remember the officer's name. It's been
14
   a long time.
                 THE COURT: Okay. Sir, let me stop you.
15
16
   When the lawyers are asking questions, you need to wait
   till they finish.
17
18
                 THE WITNESS: Yes, ma'am.
19
                 THE COURT: Because Ms. Rodriguez is taking
20
   everything down and can't write it down if you are
21
   talking at the same time.
22
                 THE WITNESS: Yes, Your Honor. I'll take
23
   my time.
24
                 THE COURT: You may proceed.
25
             (By Mr. Cornelius) You correctly figured out
        Q.
```

```
what I was going to ask, but I have to get my question
1
2
   in the record.
             It's okay.
3
        Α.
            You don't remember the name of the officer?
 4
        Ο.
            No.
5
        Α.
6
             Just to see if it might refresh your memory --
7
   and if it doesn't, it doesn't -- does the name R.E.
   Gonzalez, a Houston police officer named R.E. Gonzalez
8
   refresh your memory?
10
            No, sir.
        Α.
             Do you remember talking to the police in 1989?
11
        0.
12
             It wasn't the police. It was like detectives.
        Α.
   I was in the county jail.
13
14
             What was the last name you said?
        Q.
15
             It was like a detective in like regular
16
   clothes. They were police -- like police officers --
   they weren't dressed like police officers.
17
18
           Like Homicide detectives?
        Ο.
19
        Α.
             Yes.
20
        Q.
             Okay. And do you remember saying, though,
21
   whoever it was you were talking to, that Flores -- who
22
   was Flores? Saul?
23
        Α.
             Saul.
24
        Q.
            Was a dealer for Shorty until they had a
25
   falling out. Do you remember making that statement?
```

```
1
            No, sir.
        Α.
2
             Okay. Do you remember telling the police the
        Q.
3
   details of this falling-out that they had?
            No, sir.
4
        Α.
5
             Shorty and Saul?
        Q.
6
        Α.
            No, sir. You just asked me that.
7
        Q.
            Did you know Shorty?
8
            No, sir.
        Α.
9
            Never met him?
        Q.
10
        Α.
            No.
11
        Ο.
            When did you first start to talk to these
12
   assistant D.A.s?
13
            They have all of that information. I don't
   know what day it was.
14
            What is your best recollection as to when you
15
16
   first talked to them?
17
            I don't know. I think it was about October or
        Α.
18
   something. I'm not sure.
19
        Q.
          Okay.
20
            It was a while back, a few months ago. I could
21
   say that.
22
        Q. And where was it that y'all first talked?
23
        A. On the phone.
24
        Q. And then did you have any face-to-face
25
   meetings?
```

```
1
        Α.
             Yes.
2
        Q.
             How many times?
3
             A couple of times.
        Α.
             When was the last one?
 4
        Ο.
5
             It was last week, around there. Sometime
6
   before this, something like that. About a week -- more
7
   than that, a little bit more than that.
             Okay. And you never told them anything about

15
        Α.
             No.
16
             When you talked to the police back in 1989 do
        Q.
   you remember mentioning Obel Cruz-Garcia at all?
17
18
             They talked about it.
        Α.
19
             They did?
        Q.
20
        Α.
             Yes, sir.
21
             And what did you tell them?
        Q.
22
        Α.
             What did I tell them? They showed me a picture
23
   and I told them:
                     That's the one he was running from.
24
        Q.
             Okay.
25
             That was it.
        Α.

             The prosecutor asked you if you had a couple of

        A. What detectives?
4
           No. The prosecutor.
5
        Q.
6
        Α.
            What about them?
7
             Didn't he just asked you some questions about
        Q.
   your convictions?
8
             Sure did. Yes, sir.
        Α.
10
             You said you had a couple of convictions?
        Q.
11
        Α.
            Yes, sir.
12
             That was a long time ago?
        Q.
            Yes, sir. My last conviction, yes. A lot of

   them.
15
             The last time you got sent to the state jail --

16
   what is the state jail?
17
             What is the state jail?
        Α.
18
             Do you know what it is?
        Q.
19
             It's a state jail.
        Α.
20
        Q.
            A prison, right?
21
        Α.
             Something like -- I wouldn't call it a prison.
22
             Well, then the last time you went there was
        Q.
23
   2008?
24

            Yes, sir.
        Q. And --

Around there. 1 Α. 2 The last theft conviction you had was in 2009, Q. correct? 3 No. It was '7 or '8. That was the last time I 4 Α. went to state jail. 6 Q. Well --7 No. I didn't go to state jail. It was the Α. state jail crime, but I did the time here in the county 8 because I was fighting the case. I never went to state jail. 10 11 Okay. In 2008, you never went? Ο. No. It was a state jail conviction. 12 Α. Did you go to state jail in 2002 and 2005? 13 Q. 14 Yes, sir, back then I did. Α. Let me finish my question. 2002 and 2005? 15 Q. 16 I know it was 2002. It might have been 2005. Α. 17 I can't remember all the convictions, but they're there. 18 I did a few state jails. 19 Okay. How many times have you been to prison, Q. to TDC? 20 21 TDC? I was convicted to TDC twice. Α. 22 What for? Q. 23 One for -- the first one was burglary of a

vehicle and then the next one was -- three times. I'm

sorry. And the last two were for drugs.

How many theft convictions do you say you have?

        Q.
2
             If I told you, it would be a lie because I
   couldn't even remember. I think it might have been

            That's just a quess.
4
   eleven.
             What was the number that you told us?

        Α.
            Huh, sir?
 6
7
            What's the number you told us?
        Q.
            Maybe eleven. Maybe. I don't know. Maybe.
8
        Α.

10
11
        Α.
             That's what I said.
12
             You've got three state jail convictions,
        Q.
   although one of them you served in the county jail?
13
14
        Α.
             Yes, sir.
15
            And you think you have about eleven total
16
   theft --
17
            Around there, maybe. I'm just guessing.
        Α.

                   CARMELO MARTINEZ SANTANA,

- 1 Q. How are you doing?
- 2 A. Fine, fine.

6

- 3 Q. I have to ask you: Are you the same Carmelo
- 4 | Martinez Santana that testified last week in this trial?
 - A. That's correct.
 - Q. And that we have been calling Rudy?
- 7 A. That's right.
- Q. And you remember last week when you testified and you took the stand and you swore to tell the truth; you remember that?
- 11 A. That's right.
- 12 | Q. And those same rules apply today. Okay?
- 13 A. Fine.
- Q. Rudy, I want to take you back to the time that you were living here in Houston, back in the late --
- 16 when you moved to Houston in the late 80s.
- 17 A. Okay.
- 18 Q. And I want to speak to you about some of the 19 other things going on during that period of time.
- 20 A. That's fine.
- Q. Rudy, last week in your testimony you mentioned something that I want to visit with you more about.
 - A. That's fine.
- Q. And you mentioned something in your testimony about one occasion where the defendant Obel Cruz-Garcia

- 1 tied you up. 2 Α. That's right. And since this is a different day, I'm going to 3 Q. have you identify him. Do you see Obel Cruz-Garcia in the courtroom again today? 5 Α. That's right. 6 7 And can you again identify who you are talking Q. about by pointing to where he is and identifying 8 something he is wearing? 10 That's right. He is the one sitting over there 11 with a gray coat and a gray tie. 12 MR. WOOD: Again, Your Honor, may the record reflect the witness has identified the defendant? 13 14 THE COURT: The record will so reflect. 15 (By Mr. Wood) Rudy, the incident --Q. 16 THE INTERPRETER: Interpreter correction: 17 Blue shirt. 18 (By Mr. Wood) Rudy, when you are talking about 0. the incident where you were tied up, tell us who was 19 involved in that? 20 21 Well, him and Cesar. - A. He was a young kid from the Barrio (phonetic)

 24 in Chicago.
- Q. And what was his relationship to you and to the

defendant?

(indicating).

- A. Well, in the beginning I met him because we lived in the same apartment and we would use drugs together.
 - Q. You and Cesar?
 - A. Yes, that's right.
 - Q. And how long was Cesar a person that you guys hung out with?
- 9 A. Well, like I'm telling you, at the beginning he 10 lived in my apartment and then he met him through me.
- 11 And then he gave him work and they worked together.
- Q. Okay. What was the argument about or what was the deal going on leading up to you being tied up?
 - A. Well, one day Angelita had gone to Santo

 Domingo and Cesar wanted to smoke drugs and I didn't

 want to smoke drugs. I went to my friends' and they

 stayed there in a room, at a hotel room, and I went to

 my friends'. And then later, about two hours or three

 hours, something like that, he called me and asked me

 where I was. And I told him I was with my friends. And

 then he asked me what was I doing, if I could come over.

 And then when I arrived at the hotel, he and Cesar

 grabbed me, took me into the hotel room, he tied me up,

 and he put me in the bathtub, also with Cesar's help

- Q. When you say "he," I know you're pointing with your finger, but who are you talking about?

 A. Obel Cruz-Garcia. He is over there

 - Q. Rudy, can you help me understand what the problem was, you know, why the defendant was upset with you?
- A. Yes, of course. Because he thought that I was taking his customers away.
- 10 Q. Was there a beeper involved or some argument 11 over that?
- 12 A. Yes, that's right. I had his beeper, the 13 business beeper.
- 14 Q. And was he upset about that?
- 15 A. Yes.

7

- Q. And when you got to this hotel, he and Ceasar were already there?
- 18 A. That's right. They had stayed there and I went 19 with my friends.
 - Q. And then tell me about how you were tied up.
- A. Well, he put my hands in the back. They had me here. I was held here by the throat. And then with Cesar's help, Cesar tied me like this to the back. I was put into the bathtub and he said that he was going to kill me (indicating).

```
When you say "he" said that, who are you
1
        Q.

   talking about?
3
        Α.
             Obel.
4
             Were you locked in the bathroom? Did they
   leave you in the bathroom?
6
        Α.
             No.
                  They were there with me.

        Q.
8

             Yes.

             How long did you stay there in the bathroom?
        Q.
10
             A few minutes. Not a lot.

11
             Were you scared during that time?
        Q.
12
             I was very scared.
        Α.
             And how did you get released or what led up to
13
        Q.
14
   that?
            Before I was tied up and before I was gagged --
15
   because I was also gagged -- I told him that I was not
16
17
   taking his clients away, that I had the drug money.
18
   Then he removed this. I told him, I said: I will never
   betray, the money is here in my pocket.
19
20
        Q. And did you produce the money?
21
           He took the money out of my pocket.
        Α.
22
             And did that end the argument?
        Q.
23
        Α.
             Yes.
24
             Rudy, last week in your testimony do you
25
   remember being asked about the masks that were worn
```

   during Angelo's kidnapping?
             That's right.
2
        Α.
3
             And you said something about the mask that I
        Q.
   wanted to ask you about.
4
5
        Α.
             Okay.
6
             You indicated that there were other occasions
7
   where masks had been used. Is that correct?
8
             That's right.
        Α.
            Are you saying that -- are you aware of other

10
   robberies or burglaries that were committed that
11
   involved masks?
12
             That's right.
        Α.
             I want to ask you about an individual by the

           And who was Patiko?
17
        Q.
18
             He is a Dominican man that he was also involved

19
   in the drug business.
20
        Q.
             Was he someone that worked with you and Obel?
21
             No.
        Α.
             Is he someone that bought from you and Obel?
22
        Q.
23
        Α.
             No.
24
        Q.
             Would you say he was someone who was a
25

- A. No. He had his business apart from ours.
- Q. Okay. But you were aware that he also sold
- 3 drugs?

- 4 A. That's right.
- Q. Was there an occasion that you and the
- 6 defendant went over to his apartment?
- 7 A. Yes.
 - Q. And tell me about that. Who was with you?
- 9 A. We went to the apartment to break in.
- 10 Q. And how did you-all come up with this plan?
- 11 A. We found out where he lived and we decided to
- 12 break in.
- Q. Who was with you?

- Q. So, there were -- when you say -- I'm sorry.
- 17 | When you say "he," are you talking about Obel
- 18 | Cruz-Garcia?
- 19 A. That's right. That's right.
- Q. So, it was you, the defendant, and one or more

- 23 more.
- 24 Q. Okay. Now, you just don't remember who it was

2
             And do you remember generally where the

             Yes, of course.
4
        Α.
5
             Where was that generally?
6
             It was right there next to 610 at some
   apartments right there on the side of the freeway.
7
8
             And you said it was an apartment complex?
        Q.
9

             That's right.
10
                 MR. WOOD: Your Honor, may I approach the

12
                  THE COURT: Yes, you may.
13

14
   what's been marked for identification purposes as
   State's Exhibits 126 and 127. Do you recollect -- I may

   Exhibits 126 and 127 (indicating).
17

20
21
        Α.
             That's right.
22
             Does that look -- does that fairly and
23
   accurately depict -- well, let me back up.
24
                 What does State's 126 and 127 look like?
25
             They're the apartments.
        Α.

And are those the apartments that you described

21
   you've described?
22
             That's the front part of the complex.
23
             Okay. And State's Exhibit 127, is this the

- A. That's right.
- Q. When you and the defendant and this other

- 4 day?

- 5 A. Night.
- Q. And when you arrived at the apartment, what did
- 7 | the three of you-all do?
- 8 A. Well, they both went into the apartment and I
- 9 | stayed -- I stayed at the driver's seat.
- 10 Q. And did you park at the front of the complex or
- 11 at the back?
- 12 A. No. In the back.
- Q. So, you stayed parked down in the vehicle. And
- 14 were you in the driver's seat, right?
- 15 A. That's right.
- 16 Q. And you thought that the plan was for them to

- 18 A. That's right.
- 19 Q. And how long would you say they were up there
- 20 | in Patiko's apartment, do you know?
- 21 A. About 20 minutes.
- 22 Q. And who returned there to your vehicle?
- 23 A. Obel. And I think it was Borikae, Bory. I

- 25 | hundred percent, but I think so.

- Q. Okay. When you say Bory, are you talking about the person we've heard talked about as Roger?

 A. That's right, that's right.
 - Q. So, you think it might have been Roger, but you are not sure?
- A. No. Because there were other people that went once with us and I'm not sure if it was him or Bory.
- Q. Okay. So, on this occasion at Patiko's apartment, the defendant comes back down and maybe Roger, maybe another person came back down?
- 11 A. Yes.

- Q. And what happened when they came back down to the car?
- A. They came back with the drugs and the money. I don't remember how much.
- Q. So, you don't remember if it was a lot or not very much?
- 18 A. It was not that much.
- Q. And did the defendant, Obel Cruz-Garcia, say anything to you at that time?
- 21 A. That's right.
- 22 Q. What did he say?
- A. He said that he had raped Patiko's woman and he had beaten him.
- Q. Did he say anything about tying him up or do

```
1
   you remember?
             I think I can remember that he said that he had
2
        Α.
   tied up Patiko.
3
            And when he gave you -- when he told you that,
4
        Q.
   what did you do?
6
        Α.
             Well, nothing.
7
             Did that seem -- was that because it was
        0.
   normal, or I mean --
8
            Well, for me, it wasn't normal, but one doesn't
        Α.
   have any other alternative but to accept.
10
11
        Ο.
             Well, so you guys took the money and the drugs
12
   and then you left that location?
13
             That's right. That's right.
        Α.
             Would you say that this was a single occurrence
14
15
   or did that happen on other occasions as well?
16
             It occurred at other times.
        Α.
17
             So, going over to an apartment and robbing or
18
   burglarizing someone was not that out of the ordinary?
19
        Α.
             No.
20
        Q.
             Would the targets of these burglaries or
21
   robberies oftentimes be someone that you had known
22
   through your drug connections?
23
             That's right, they were people that were
```

dedicated to drugs.

25

Q. Rudy, I want to talk to you about a person that

```
you knew as Saul Flores.
1
2
        Α.
             Okay.
3
             Who was Saul to you?
        Q.
           He was a Mexican guy that worked with both of
4
        Α.
5
   us.
6
        Q.
            And did he work for you guys for a long time or
7
   a short time?
8
            Not for a long time.
        Α.
             Do you know how old Saul was or generally how
        Q.
   old of a person he was?
10
11
             He was a young man, about 22 or -- from 20 to
12
   22 years. I can't tell you exactly how old.
13
             So, a young guy?
        Q.
14
             That's right.
        Α.
            And did he eventually sell drugs for -- or sell
15
        Q.
16
   cocaine for you and Obel?
17
             That's right.
        Α.
18
             How did you and the defendant meet Saul?
        Q.
19
             Through another Mexican that worked for us.
        Α.
20
        Q.
             Who was that person?
21
        Α.
             They would call him Shorty.
22
             Who was Shorty? Do you know -- well, first let
        Q.
23
   me ask:
             Do you know Shorty's full name?
24
        Α.
             No.
25
        Q. And who was Shorty?
```

```
He was a Mexican man that he and I met at
1
2
   Broadway at Easton, at the first apartments when we
   first began.
3
        Q. And from there, you began a friendship with
4
   Shorty?
6
        Α.
            That's right.
7
        Q. And how long did Shorty work for you and the
   defendant?
8
        A. Well, he was the one that was with us the
   longest.
10
11
        Ο.
            Okay. Shorty was?
12
        Α.
           Yes.
            And through Shorty is how you met Saul; is that
13
        Q.
   right?
14
       Α.
            That's right.
15
16
        Q. Was Saul a big-time dealer for you guys or more
   small-time?
17
18
            He would sell small amounts. He was just in
        Α.
19
   charge of taking care of the business.
20
        Q. Would you say that the time period that Saul
21
   sold drugs for you was early on in the time that you
22
   lived -- after you moved here to Houston?
23
        A. Not a lot of time -- not a lot of time passed
24
   when he was selling drugs for us.
```

Q. I think I may have asked a confusing question.

```
1
             Okay.
        Α.
2
             Did you and the defendant meet Saul shortly
   after moving to Houston?
3
             Yes, after Shorty had worked for us.
4
        Α.
             And was that sometime around 1989, would you
5
        Q.
   say?
6
7
             That's right.
        Α.
             At some -- excuse me. At some point in time,
8
        Q.
   did -- were you aware of a conflict with the defendant
10
   and Saul?
11
        Α.
             That's right.
12
             What was the source of that conflict?
        Q.
             It was a girlfriend that he had.
13
        Α.
14
             And when you say "he," who are you talking
        Q.
   about?
15
16
             Obel.
        Α.
17
             And who was that girlfriend?
        Q.
18
             Her name was Isabel -- Correction. Elizabeth.
        Α.
19
             So, the girlfriend of Obel was Elizabeth?
        Q.
20
        Α.
             Yes.
21
             And what was the conflict between the defendant
        Ο.
22
   and Elizabeth and Saul?
23
             It's that Saul had taken some drugs, he had
```

gone to Elizabeth's apartment, and he wanted to have

some type of love relationship with her. And then she

24

```
called him and told him that Saul was courting her, he
1
2
   was courting her, and at that same moment, he was there
   at the apartment with her.
3
            And when you say that "she called him," are you
4
        Q.
   saying that Elizabeth called the defendant?
6
        Α.
             That's right.
            And were you there -- I will withdraw that.
7
        Q.
                 Did you observe the defendant's reaction to
8
9
   this news?
10
             He was furious.
        Α.
11
        0.
             So, what happened next?
12
            He said immediately: Let's go for him.
        Α.
13
        Q.
             So, at that point would you say that the
   business relationship between the defendant and Saul had
14
   ended?
15
16
             That's right.
        Α.
17
             And did the defendant start looking for Saul?
        Q.
18
             We went directly to Elizabeth's apartment.
        Α.
19
             And did you find Saul?
        Q.
20
        Α.
             That's right.
21
        Q.
             Do you remember at that time who was with you
22
   besides you and the defendant?
23
        Α.
             Roberto, a Chicano.
24
        Q. Robert?
25
        A. Robert, yes.
```

```
So, you, Robert, and the defendant go over to
1
        Q.
2
   Elizabeth's apartment?
3
            That's right.
        Α.
4
        Ο.
            And do you encounter Saul at that point?
5
            That's right.
        Α.
6
            And then what happens?
        Q.
7
        A. He put him in the car -- we put him in the car.
            Are you saying you put Saul in the car?
8
        Q.
9
            No. I don't want you to think that I'm trying
        Α.
   to take any blame from myself. I said that we put him
10
   in there. Because in one way or another, I'm involved
11
12
   in the case.
13
        Q. Okay. So, I guess my question is: Was it Saul
   that you put in the car?
14
15
        Α.
            That's right.
16
          And it was you, Robert, and the defendant?
        Q.
17
          That's right.
        Α.
18
            Okay. So, once Saul was in the car, where did
        Q.
   you drive to?
19
20
        Α.
            We went to the apartment on Winkler that we had
21
   rented.
22
            So, y'all -- you guys had an apartment there
        Q.
23
   off of Winkler?
24
        A. That's right.
```

Q. Did anybody live in that apartment at Winkler?

- 1 A. No.
- Q. What was the purpose of that apartment?
- 3 A. To sell drugs.
- Q. And is that one of the locations you guys kind of operated out of?
- A. That's right. Sometimes Shorty stayed there and at other times we would just go there for a short time.
- 9 Q. Okay. So, this period of time is still a
 10 period of time that Shorty is selling drugs for you
 11 quys?
- 12 A. That's right.
- Q. So, once you arrived at the apartment, what happens next?
- A. We went upstairs. But right now, I don't remember exactly how we went up, who took him up, but we all went upstairs.
- 18 Q. So, it was an upstairs apartment?
- 19 A. That's right.
- Q. And did the four of you go inside?
- 21 A. That's right.
- 22 Q. And once you got inside, what did you do?
- A. Correction. When we were on our way over
 there, there are five of us because Richard also came
 with us because Richard and Elizabeth are family,

```
relatives.
1
2
        Q. Okay. Let me just clarify that real quick.
3
                 So, when you left the apartment -- when you
   left Elizabeth's apartment with Saul -- or after you
4
   left, rather, on the way to the Winkler apartment you
5
   picked up a person named Richard?
6
7
            He went with us. He accompanied us from
        Α.
   Elizabeth's apartment.
8
             Okay. And who was this Richard person?
        Q.
10
             Richard is a Chicano that we met through
11
   Elizabeth and through the drugs. And they lived at the
12
   same apartments where he and Angelita lived and me.
             So, Richard and Elizabeth were family?
13
        Q.
14
             That's right.
            During that period of time, did you ever know
15
        Q.
16
   anyone by the name of Tina?
17
             That's right.
        Α.
18
            Who was Tina?
        Ο.
19
             She is a Chicano.
        Α.
20
        Q.
            And how was it she knew anybody in that group?
21
             She was the girlfriend of another guy named
        Α.
22
   Roberto, but it's not the same Robert.
23
        Q.
             Did Elizabeth know Tina?
24
        Α.
             I think so. I don't remember exactly right
25
   now.
```

```
Okay. There is a lot of Roberts and Richards.
1
        Q.
2
   I'll move on.
                 When you arrived at the apartment, it was
3
   you, the defendant, Saul, Robert, and Richard?
4
            That's right.
5
        Α.
            What did you do when you guys got up to the
6
7
   apartment?
            We got there and he started, all at once from
8
        Α.
   the beginning, beating him up badly. He told me: Go to
10
   the room because you can't see what's going to happen
11
   here.
12
        Q.
            Now, when you say he started beating him, you
   have to tell me who you are talking about.
13
14
        Α.
            Obel.
15
        Q. Started beating who?
16
        Α.
            Saul.
17
            Was Saul free at this point? I mean, was he
        Q.
18
   bound in any way?
19
            He threw him and tied him up.
        Α.
20
        Q.
            Now, when you say that Obel told you to go to
   the room, what do you mean by that?
21
22
            Because he always thought that I was very weak
23
   and that I couldn't look at things like that.
24
        Q.
            So, what room did he direct you to?
25
            Okay. Here is -- he had Saul. Here is the
        Α.
```

```
kitchen, over here is the living room. That was where
1
2
   Saul was laying. And the room where he sent me was over
   here (indicating).
3
4
            So, you are pointing somewhere behind you.
   Behind where the kitchen was as you've described it?
6
            No. The body is here, Saul is here, the
7
   kitchen is here, and the room is back here (indicating).
            Okay. Was it a bedroom?
8
        Q.
9
            That's right.
        Α.
            And did you go directly back to that bedroom?
10
        Q.
11
            That's right.
        Α.
12
            And could you see the kitchen area where Saul's
        Q.
13
   body was from where you were standing?
14
            That's right, perfectly.
        Α.
15
            And what did you -- could you tell what Saul
        Q.
16
   was being beaten with?
17
            Yes. They were beating him with something very
        Α.
18
   heavy, but at this moment I don't remember if it was a
19
   hammer. He would say: Lift up your hand. And he would
20
   swing very hard and his hand got really ugly. Raise the
21
   other one. And he was hitting him hard. And I was
22
   standing behind the door. I was looking at everything.
23
            So, when you say "he," are you talking about
24
   the defendant?
```

A. That's right.

```
So, you could see Saul's hands being hit with
1
        Q.
2
   something; is that right?
3
             That's right.
        Α.
             What else did you see?
 4
        0.
5
             They were injecting him with drugs.
        Α.
             Who is "they"?
 6
        Q.
7
             Him and Richard.
        Α.
             The defendant and Richard?
8
        Q.
9
             That's right.
        Α.
             And could you see that from where you were
10
        Q.
11
   standing?
12
             That's right.
        Α.
            And what happened next?
13
        Q.
14
             Then later he was sweating a lot. Before that
15
   he was asking for help, he was saying: Rudy, help me.
16
   But I couldn't help him.
17
            And what else did you observe?
        Q.
18
            After that -- excuse me. I don't know exactly
   if it was -- I'm here, I'm not lying, because this is
19
20
   something that did happen, but what happened happened a
21
   long time ago. And sometimes I get confused in the
22
   sequence of how it happened. After he had -- was
23
   sweating profusely and his hands were completely
24
   destroyed and they had injected a lot of drugs into him,
25
   then he got on top of him like this and he broke his
```

```
1 | neck like this (indicating).
```

15

16

17

18

- Q. So, from where you were standing it looked like he was doing something to his neck area?
- A. Yes. Of course, I saw it perfectly when he broke his neck.
- Q. And do you -- are you talking about the defendant, Obel Cruz-Garcia?
 - A. That's right, that's right.
- 9 Q. Did you see anything else happen to Saul as he 10 was laying there?
- A. After that -- there after he killed him, he tied him up, him and Richard, they called me to help them take the body to the bathtub.
- 14 Q. What was Robert doing during this time?
 - A. Right now, I cannot remember. It doesn't come to my mind. Because I can't get it out of my mind how he and Richard, that Richard was injecting drugs into him over here and he completely destroyed his hands.
- Q. Now, when you say that he was tied up or bound, where was he tied up or how was he tied?
- A. They tied him with his hands to the back. The body was face-down.
- Q. Did you take him into the bathtub?
 - A. No. I helped to take him to the bathtub.
- Q. Okay. I'm sorry. I asked that the wrong way.

You helped take the body to the bathtub? 1 2 Α. That's right. Where did you place him when you got to the 3 Q. bathtub or where did the group of you place him when you 4 got him to the bathtub? We put the body inside the bathtub. 6 Α. 7 Q. And then what happened? We left. 8 Α. 9 Where did you -- did you leave anyone behind at Q. the apartment other than Saul or did you-all leave? 10 11 I don't remember exactly, but I believe that we 12 all left. Okay. And do you remember what you did after 13 Q. 14 that? 15 We went to drink, to continue drinking. Α. 16 Did you eventually come back to that apartment? Q. 17 Yes, we came back later. Α. 18 Do you know how long it was that you stayed Q. gone from that apartment? 19 20 Α. Not exactly. 21 Was Saul's body still there in the bathtub when Q. 22 you arrived back at the apartment? 23 Α. That's right. 24 Q. And then what did -- what happened next?

A. We came back and after a while we left.

Let me -- when you returned to the apartment, 1 Q. 2 did you do anything with Saul's body? 3 Not that same night. Α. Okay. At some point, at a later time? 4 Ο. No, not that same night. 5 Α. Okay. What about the next day? 6 Q. 7 The following day, Shorty called us and asked Α. what had happened, why had his friend Saul been killed. 8 9 Q. And did y'all respond to him? "Yes" or "no"? I don't remember exactly what he said to him. 10 Okay. And after Shorty contacted you, what 11 Q. 12 happened next? We lived over there on 10 going towards 13 Α. Wallisville and we would come go over there to sell 14 15 drugs. 16 Q. Okay. 17 And then from there, we came back to here and 18 then the following night we decided to bring down the 19 body. 20 Q. And when you say "we," who are you talking 21 about? 22 Him, me, Roberto. And I don't remember exactly 23 if it was Shorty or Richard. There were four of us. 24 There were two of us on each side and we brought the

25

body down.

```
And what did you do with the body?
1
        Q.
2
             We put him over in the dumpster that was
   outside.
3
        Q. And that's where you left him?
4
5
             That's right.
6
             Rudy, back in 1989 when this happened, were
7
   any -- or any time after that, did the police ever come
   and talk to you about Saul's death?
8
        Α.
             No.
10
             You were never brought in to answer questions
        Q.
   about that?
11
12
        Α.
             No.
13
        Q.
           No one ever mentioned it to you, did they?
14
        Α.
             No.
15
             When was the first time you told about Saul's
        Q.
16
   death?
17
             I told my attorney.
        Α.
18
            And that's Mr. Castro?
        Q.
19
             That's right.
        Α.
20
        Q.
             And then did you -- after you told Mr. Castro,
21
   did you tell anyone else?
22
        Α.
             That's right.
23
        Q.
            And who else did you tell?
            You-all.
24
        Α.
25
        Q. And was that over in the jail when we came to
```

```
visit you?
1
2
        Α.
             That's right.
3
                 MR. WOOD: Your Honor, may I have just a
   second?
4
                 THE COURT: Yes.
5
 6
                 (Pause)
7
                 MR. WOOD: Your Honor, at this time I will
8
   pass the witness.
                 THE COURT: Thank you, Mr. Wood.
10
                 At this time, ladies and gentlemen, we're
11
   going to break for lunch. Your lunch has arrived.
12
   We'll come back at 1:30.
13
                 I want to remind you that you should not
14
   talk amongst yourselves or with anyone else on any
15
   subject connected with the trial or to form or express
16
   any opinion thereon. You may go with the bailiff.
17
                 (Open court, defendant present, no jury)
18
                 THE COURT: We'll be in recess till 1:30.
19
                 (Lunch recess)
20
                 (Open court, defendant and jury present)
21
                 THE COURT: Please be seated.
22
                 Back on the record in Cause 1384794.
23
   jury is in the courtroom. The defendant is at counsel
24
   table with his counsel and the prosecution is
25
   represented by Ms. Tise and Mr. Wood.
```

```
I believe we were on the witness, Carmelo
1
2
   Martinez Santana, also known as Rudy, and the State and
   had just passed this witness. Is that correct?
3
 4
                 MR. WOOD: That's right, Your Honor.
5
                 THE COURT: Okay. Mr. Cornelius, you may
   proceed.
6
7
                        CROSS-EXAMINATION
   BY MR. CORNELIUS:
8
            Mr. Martinez, how are you this afternoon?
        Q.
10
            Fine.
        Α.
11
            Back in 2011 when the FBI came to talk to you,
        0.
12
   was that because you contacted them and asked them to
   come talk to you?
13
14
        Α.
            No.
15
             They just showed up unannounced, correct?
        Q.
16
            Yes.
        Α.
17
             So, you had not contacted them or anybody else
18
   and told anybody in law enforcement that you wanted to
   talk to them about a case or cases in Houston, Texas,
19
20
   correct?
21
        Α.
            No.
22
             It wasn't your idea to talk to them, it was
23
   their idea to talk to you?
           Yes.
24
        Α.
25
        Q. And this other murder case that you've told the
```

```
1 jury about today, have you been charged in that case?
```

- A. I really don't know. I don't know anything.
- 3 I'm just here to tell the truth.
 - Q. Okay. Did you talk to your lawyer today?
 - A. Just a few minutes ago during the recess.
- 6 Q. Okay. And is he here in the courtroom?
 - A. That's right.

- Q. So, do you have any murder cases, capital murder cases, robberies, burglaries, any cases pending on you here in Harris County, Texas?
- 11 A. That really depends on the law. I'm just here
 12 to tell the truth and they are the law. They are the
 13 ones that know.
 - Q. Okay. But don't you know if you were charged in any of these cases your lawyer would tell you that?
 - A. Well, they are the ones that know that. I always -- when I put the -- the man in Puerto Rico said: You have two cases, murder charges. I don't care. I'm here to say -- to tell the truth in front of God and justice.
 - Q. I thought you told the jury earlier in your testimony that you had not been served with any kind of indictment or formal charges in the case you told the jury about before.
- 25 A. That I can recall, I didn't say that. I have

```
always said that.
1
2
            Since that time, have you received any
   indictments or any formal charges, since you previously
3
   told the jury you didn't have any?
4
            That I know of, no. I don't know.
5
        Q. All right. Thank you.
 6
7
                 The incidents you told the jury about where
8
   you were put in a bathtub, when did that occur?
            I can't tell you exactly what year that
        Α.
   occurred.
10
11
        Q. Did it occur -- strike that question.
12
                 If the murder case that you told the jury
13
   about today occurred in 1989, did the case that you told
   the jury about where you were put in a bathtub occur
14
   before that murder occurred or after?
15
16
        A. After.
17
            Okay. If the case you told the jury about last
18
   week, the case that this trial is about occurred in
   1992, the incident in the bathtub occurred before that
19
20
   or after that?
21
          Before.
        Α.
22
            Okay. And the Patiko case, when did that
        Q.
23
   occur?
```

A. That occurred -- that occurred a little before the murder case of this child.

24

- All right. And in that Patiko case, you were 1 Q. left in the car behind the wheel. Is that what you 2 testified to? 3 4 Α. That's right. That's right. And what is your understanding of what you were 5 supposed to do in that car behind the wheel while the 6 7 other people got out? Wait for them to come back. 8 Α. Okay. Well, you could wait for them in the Q. 10 passenger seat or the back seat, but you were waiting 11 for them behind the wheel, correct? 12 Yes, because that's what he ordered. Α. 13 Q. Okay. And if they needed you to come pick them up, were you going to come pick them up? 14 Well, of course. 15 Α. 16 And if they needed to get away fast, were you Q. 17 going to get them away fast? 18 That's right. Α. 19 Were you also there looking out to see if the Q. 20 police came or some other people came that might cause a 21 problem for them? 22 Α. It could be.
- Q. Okay. That's the same thing you did on the night that Baby Angelo was taken?
- 25 A. That's right.

You told the jury today that these events that 1 Q. occurred you had no choice in them and had to accept 2 them. Is that what you said? 3 Yes, of course. 4 Α. Well, even after you claim whatever you claim 5 about the Baby Angelo case, you say that you stayed with 6 7 Obel Cruz-Garcia? Afterwards? 8 Α. Q. Yes. 10 Α. Yes. 11 Ο. You helped clean up the car that was used to 12 transport the body? 13 That's right. Α. 14 You helped him sell that car? Ο. 15 Α. I was with him. I didn't help. 16 Okay. Well, did y'all go in two cars so you Q. 17 would have another car to drive when you sold it? 18 I don't remember exactly how it occurred. Α. 19 All right. You drove him to the airport so he Q. 20 could get away, correct? 21 Α. That's right. 22 And then you continued in your own drug dealing practice after he left, right? 23 24 Α. That's right. Not immediately. Because before

that, I was in jail here in the county. And then after

- that, I went to a church on 59, the Light of the World,
 and doing legal work. And then I went with my son to
 church to ask God for forgiveness. I had to go every
 day to ask for his forgiveness with my son kneeling
- Q. Okay. And then it was after that that you resumed the drug business?
 - A. Yes. I went back again using drugs and drinking and then I started selling drugs again.
 - Q. And carrying weapons?
- 11 A. The day that I was caught, yes.

there so that God won't punish him.

- Q. Okay. Now, the day that Saul was killed, you said that he had injuries to his hands. His hands were beaten with something?
- 15 A. Yes, of course.

5

8

10

- 16 Q. Explain that again, please.
- 17 Saul was laying like this. This is the 18 kitchen. Here is the entrance to the kitchen. Over here, over here Saul was lying face-up -- he was lying 19 20 face-down. At that moment Saul was not tied up. He was 21 hitting him with something. He would tell him: Raise 22 your hand. And he would hit him very hard, but it 23 doesn't come to mind or to my sight with what he was 24 hitting him with (indicating).
 - Q. Let me stop you for a moment and ask questions.

```
1 | How many times did he hit the hands?
```

- A. Several times, many times.
- Q. Okay. Give me an estimate, whatever your best 4 estimate would be.
- A. I couldn't tell you, but he had them like this (indicating).
- Q. And you said something like he destroyed his hands. I forgot the words that you used earlier.
 - A. Yes. His hands were this big (indicating).
- 10 Q. Uh-huh.

- 11 A. He tore them.
- 12 Q. All right.
- A. And then he was also burning him with cigarettes. And Richard and him were injecting drugs into him.
- Q. Okay. I'm going to get to that. Stick with the hands for a minute. Did he hit both hands at the same time or one at a time?
- 19 A. First one hand and then the other.
 - Q. One time on each hand or multiple on each hand?
- A. I can't tell you exactly, but what I can
 remember is he would hit him a lot on one and then he
 would also hit him on the other hand.
- Q. So, a lot on both hands, is what you're saying?
- 25 A. That's right.

```
Okay. And then he was being burned by
1
        Q.
2
   cigarettes?
3
        Α.
             That's right. He burned him. He would burn
   him.
5
             Okay. About how many times?
        Q.
6
        Α.
             I can't tell you how many times.
7
             Is it more than one?
        Q.
            Yes, of course.
8
        Α.
9
        Q.
            More than five?
10
             Right now, I don't know exactly, but it could
        Α.
11
   be.
12
            All right. And I forgot the guy's name, but
        Q.
   someone was injecting him with drugs?
13
14
            Him and Richard.
        Α.
             Okay. And you were pointing to your neck when
15
        Q.
16
   you were talking to the jury. Is that where they were
17
   injecting him?
18
            Yes. They were injecting him here and also
19
   injecting him over here, his hands (indicating).
             In the hands?
20
        Q.
21
             In the veins of the hands or over here
        Α.
22
    (indicating).
23
        Q.
             So, they were injecting him in the neck?
             That's right, they injected him in the neck.
24
        Α.
25
            And in the hands or arms?
        0.
```

```
Right now, I don't exactly know where it was,
1
   but they injected him in the arms. I don't know if it
2
   was here or if it was over here, but that occurred
3
   (indicating).
4
5
        Q. Okay.
6
                 MR. CORNELIUS: May I check my notes for a
7
   second, Judge?
8
                 THE COURT: Yes.
9
                 (Pause)
10
                 MR. CORNELIUS: Pass the witness.
11
                 THE COURT: Thank you, Mr. Cornelius.
12
                 Anything further, Mr. Wood?
13
                 MR. WOOD: Just briefly, Your Honor.
14
                      REDIRECT EXAMINATION
   BY MR. WOOD:
15
16
             Rudy, in talking about Saul's case -- or rather
17
   Saul's murder, at any time when you have talked to
18
   myself or Ms. Tise or any investigators that might be
   working with us, have we promised you anything regarding
19
   the murder of Saul?
20
21
        Α.
            No.
22
            And did we tell you necessarily that you would
23
   get any kind of deal or benefit from coming into court
24
   and testifying about Saul's murder?
25
            None. None.
        Α.
```

```
And in speaking with your lawyer, Mr. Castro,
1
        Q.
2
   he hasn't promised you anything about Saul's murder case
   either, has he?
3
        A. No. First, I decided to tell him about it.
 4
            And you were the first person that told
5
   Mr. Castro about that, right?
6
7
            That's right.
        Α.
            And then you volunteered the information about
8
        Q.
   Saul when we first spoke to you; is that right?
            That's right. Because I'm very, very sorry for
10
11
   this. I want to cleanse myself. I want to be another
12
   person.
13
        Q. And, Rudy, when we first visited with you over
   in the jail, we first came to speak to you about
14
15
   Angelo's kidnapping and murder; is that right?
16
            That's right.
        Α.
            And when we asked you if you had any other
17
18
   information you wanted to share, that's when you told us
   about Saul's murder; is that right?
19
20
        Α.
            That's right.
21
                 MR. WOOD: I will pass the witness.
22
                 THE COURT: Anything further,
23
   Mr. Cornelius?
24
                 MR. CORNELIUS: No, Your Honor.
25
                 THE COURT: May this witness be excused?
```

```
MR. CORNELIUS: Yes, Your Honor.
1
2
                 THE COURT: You may step down, Mr. Martinez
   Santana.
3
 4
                 Please call your next.
                 MR. WOOD: The State calls Dr. Dwayne Wolf.
5
                 THE BAILIFF: Your Honor, the witness has
6
7
   been sworn and testified previously.
                 THE COURT: Thank you, Deputy Perry.
8
9
                 You may proceed.
10
                 MR. WOOD: Thank you, Your Honor.
11
                        DR. DWAYNE WOLF,
12
   having been first duly sworn, testified as follows:
13
                       DIRECT EXAMINATION
14
   BY MR. WOOD:
15
        Q. Good afternoon, Dr. Wolf. Welcome back.
16
          Thanks.
        Α.
17
             I won't ask if you are excited to be here.
18
                 Can you please reintroduce yourself for the
   ladies and gentlemen of the jury?
19
20
        Α.
             I'm Dr. Dwayne Wolf.
21
            And are you the same Dwayne Wolf that testified
        0.
22
   earlier in this same trial?
23
        Α.
            Yes.
24
        Q. And, Dr. Wolf, generally can you go over
25
   quickly with us your -- well, first tell us how you are
```

```
employed again.
1
2
        Α.
             Deputy chief medical examiner for Harris
   County.
3
            And just briefly your background and
4
        Q.
   qualifications in being a medical examiner.
5
6
             I have bachelor's degree in biology, a Ph.D. in
7
   molecular biology, and an M.D. degree. Training in
   pathology, subspecialty training in forensic pathology.
8
   And I'm board certified by the American Board of
10
   Pathology in both anatomic pathology and forensic
11
   pathology.
12
            And how long have you been employed again with
        Q.
   the Harris County Institute of Forensic Sciences?
13
14
             Since September of 2001.
             During the course of that, you have had the
15
        Q.
16
   occasion to perform many autopsies, have you not?
17
        Α.
             Yes.
18
            And you've also been called upon to testify as
        0.
19
   an expert in this court and other courts?
20
        Α.
             Yes.
21
             And that would be on many occasions; is that
        Ο.
22
   right?
23
        Α.
             Yes.
24
        Q.
             The case that you testified before in this --
```

I'm sorry. Yeah. In your earlier testimony you were

```
testifying about a 1992 case; isn't that right?
1
2
        Α.
             Correct.
             During discussions with our office, were you
3
        Q.
   asked to look into a 1989 case that your office
4
   performed an autopsy on?
5
6
        Α.
             Yes.
7
             And was that a case involving an autopsy of
        Q.
   Saul Flores?
8
        Α.
             Yes.
             Dr. Wolf, I know you testified last week about
10
11
   this, but back during that time, suffice to say you were
12
   not employed with the Harris County Institute of
   Forensic Sciences or the medical examiner's office as it
13
14
   was then known?
             That's correct.
15
        Α.
16
             Were you asked to review the documentation and
17
   findings in that autopsy of Saul Flores just like you
18
   were in the case of Angelo Garcia, Jr.?
19
        Α.
             Yes.
20
        Q.
             Going back to that case, the case involving
21
   Saul Flores, was that case, like other cases, assigned a
22
   uniquely identifying number by your office?
23
        Α.
             Yes.
24
        Q. And do you have recollection what that number
25
   was?
```

```
1
             That was ML-89-4198.
        Α.
2
        Q.
             And how are those numbers assigned within your
3
   office?
             The first two digits are the year and the last
4
   digits are a sequential number for bodies that were
6
   examined.
7
            And in that case of 89-4198, was an autopsy
        Ο.
   performed?
8
        Α.
             Yes.
10
             And when was that autopsy performed?
        Q.
11
             It was July 1st, '89.
        Α.
12
             And was that autopsy performed by?
        Q.
13
            Dr. Narula.
        Α.
14
             Is Dr. Narula, is he employed by your office
        Q.
15
   any longer?
16
             No.
        Α.
17
             At the time that the autopsy was performed on
18
   an individual known as Saul Flores, was a report
19
   generated for that?
        A. Yes.
20
21
             And that report generally just noted findings
   of Dr. Narula?
22
23
        Α.
             That's correct.
24
        Q. And you were you able to review Dr. Narula's
25
   original report?
```

```
A. Yes.
```

- Q. What other documents or items have you been able to review in this particular case?
- A. Our investigator's report, which is basically preliminary information gathered before the autopsy is conducted. I also reviewed all the photographs in our case file for this case, which included both photographs that were taken at the scene as well as photographs taken during the course of the examination.
- Q. And in your review of that, would you say that there were many photos that you reviewed?
- 12 A. Yes.
- MR. WOOD: Your Honor, may I approach the witness?
- THE COURT: Yes.
- Q. (By Mr. Wood) Dr. Wolf, I'm going to show you
 what's been marked for identification purposes as
 State's Exhibit 121 and 122. Can you look at those and
 tell me if you recognize those (indicating)?
 - A. Yes.

20

- Q. And what do you recognize those to be?
- A. These are photographs taken during the autopsy that we're discussing.
- Q. And is there a uniquely identifying number on each of those?

```
1
        Α.
             Yes.
2
        Q.
             What is that number?
3
            Again, 89-4198.
        Α.
            And are these -- you reference that you
 4
        0.
   reviewed many photos in this case. Are these just two
5
   of the many photos that you reviewed?
6
7
        Α.
            Yes.
                 MR. WOOD: Your Honor, at this time, I will
8
   offer the State's Exhibit 121 and 122.
10
                 THE COURT: I have 121 already marked as a
   certified copy of a Puerto Rican J & A, so you'll have
11
12
   to mark it as something else. 122 is the photo of Saul?
13
                 MR. WOOD: That's correct, Your Honor.
   have miss-marked that. The other will be one 128.
14
15
                 THE COURT: So, 122 and 128?
16
                 MR. WOOD: Yes, Your Honor. I will have
   Dr. Wolf just clarify.
17
18
             (By Mr. Wood) Now those are marked 122 and 128.
        Ο.
   Does that seem accurate (indicating)?
19
20
        Α.
             Yes.
21
                 MR. WOOD: Sorry about that.
22
                 (State's Exhibit No. 122 and 128 Offered)
23
                 MR. CORNELIUS: No objection.
                 THE COURT: State's Exhibits No. 122 and
24
25
   128 are admitted without objection.
```

```
(State's Exhibit No. 122 and 128 Admitted)
1
2
                 MR. WOOD: Permission to publish, Your
   Honor?
3
        Q.
             (By Mr. Wood) Dr. Wolf, State's Exhibit 128
4
   first, can you tell us what's depicted in 128
5
   (indicating)?
6
7
            This is an overall photograph of the body of
        Α.
   Mr. Flores.
8
            And it's kind of hard to read upside down, so
        Ο.
   I'll turn that.
10
11
                 And that's the M.E. number that you've
12
   referenced up here in the upper right-hand corner?
        A. That's correct.
13
        Q. And State's Exhibit 122, what is 122?
14
15
            This is a photograph taken of the face of
16
   Mr. Flores.
17
            Can you tell the ladies and gentlemen in your
18
   practice what we commonly know as an identification
   photo or I.D. photo?
19
20
        A. All right. The identification photograph
   typically is a photograph taken directly straight at the
21
22
   face with the face cleaned up and generally with the
23
   case number and field of view.
24
        Q.
            And would you say over the years the
   identification photo has evolved to where it in many
25
```

```
cases today might be even a little cleaner than it
1
2
   appears in 122?
             Yes.
3
        Α.
             Did you also have an opportunity to review some
4
        Ο.
   photos taken by the Crime Scene Unit back on July 1st of
5
   '89 that are related to this case?
6
7
        Α.
             Yes.
             In your review of the photos, both from your
8
   office, the documents from your office and from the
   Houston Police Department, were you able to make any
10
11
   determination or findings based on your training and
12
   experience regarding the death of Saul Flores?
        Α.
13
            Yes.
            And what generally were your findings or your
14
        Ο.
15
   conclusions?
16
             He had injuries that were consistent with
   ligature strangulation.
17
18
            And when we hear the term "ligature," what do
        Ο.
19
   you mean by that?
20
        Α.
             By strangulation, we mean that there was a neck
21
   compression. Typically, the mechanism of that has to do
22
   with compression of the blood vessels in the neck.
23
   the airway, but the blood vessels. When we refer to
24
   manual strangulation, that means that somebody was
```

strangled with another person's hand. Ligature

```
1
   strangulation means that there was some object that was
2
   used to strangle the person with, be it a rope, a cord,
   extension cord, any of those sorts of things. So, there
3
   was some object used in addition to or instead of just a
   hand.
5
            And when strangulation occurs, you said that it
6
7
   creates some popping of the blood vessels?
8
            Well, it's compression of the blood vessels in
        Α.
   the neck, which cuts off blood flow to the brain.
            Is that ultimately what leads to one's death if
10
11
   the cause of death is strangulation?
12
            Usually. Again, you can get some compression
        Α.
13
   of the airways, too, but it takes a lot more force to
   compress the airways than it does to compress the
14
15
   vessels. So, it's usually more of a vascular
16
   compression.
17
        Q. Dr. Wolf, I'm going to take you through a few
18
   photos, if you don't mind. State's Exhibit 118, I will
   enlarge that. What is shown in State's Exhibit 118 from
19
20
   this picture (indicating)?
21
            We're looking at left side of Mr. Flores' neck
        Α.
22
   and there are two ligature marks across the neck,
23
   horizontal ligature marks. And, in fact, it's a pattern
24
   mark, a ligature mark. Particularly, the one
```

superior -- the one closest to the top of the neck

```
consists of two rows of outer outline by red marks.
1
2
   Consistent with what you would see with an extension
   cord, two side-by-side components. The other mark is
3
   just a linear line, which would be consistent, again,
   with something like an extension cord, but just on its
   side so that you didn't see the two components. Again,
6
7
   with manual strangulation, we frequently see injuries of
   the neck, but they're not well defined like this. There
8
   will be scattered and contusions, but not linear marks
   like this.
10
11
            And these ligature marks depicted in 118 are
12
   consistent with the same ligature marks that in your
13
   opinion led to the strangulation of Saul Flores?
14
        Α.
            Right.
15
            State's Exhibit 117. What, if anything, can
        Q.
16
   you tell us about 117 that stands out to you
17
   (indicating)?
18
            Again, you are looking at pretty much the same
   view here, but from the other side of the body. So, now
19
20
   we're looking at Mr. Flores' face. There is some bloody
21
   fluid on the face emanating from the nose and the mouth.
22
   When a person is strangled, the lungs will become
23
   congested. In other words, fluid fills up inside the
24
   air spaces. And, you know, once a person dies, that
25
   fluid can just leak back out. So, we get, essentially,
```

```
purged fluid, which is what this is, coming out of the
1
2
   nose and mouth. It is nonspecific. So, we see in any
   condition where we have pulmonary congestion, edema, or
3
4
   fluid in the lungs, but it's consistent with
   strangulation. In many of the photographs we were able
5
   to see petechial hemorrhages on the face, which are just
6
7
   little pinpoint hemorrhages in the skin. And I don't
8
   know if they are visible on this photograph or not. I
   certainly can't tell on the projected view here, but
10
   when you compress the vessels in the neck, the first
11
   thing that becomes compressed are the veins. It only
12
   takes about 4 pounds of pressure to compress the jugular
   veins and it takes about 11 pounds of pressure on the
13
   carotid arteries.
14
15
                 So, between about 4 pounds and 11 pounds,
   blood is still going into the head, but it's not coming
16
17
   back out. So, the blood pressure in your head goes up
18
   and up and you start popping small blood vessels.
19
   That's when we start to say these little pinpoint
20
   hemorrhage or petechial hemorrhages in various places.
21
   They will show up on the skin of the face, sometimes in
22
   the inside of the eyes, the whites of the eyes, and that
23
   sort of thing, but, again, it is just another indicator
24
   of strangulation.
25
                 He has also got some blunt force injuries.
```

```
There are some contusions there around the eyes. And you will see that the right eye is swollen and discolored purple. Basically a black eye.
```

- Q. And you said that's consistent with blunt force trauma?
 - A. Yeah, the result of blunt force trauma.
- Q. And also noted on the face up here near the hairline, would you say that that could be characterized as contusions up here near the hairline (indicating)?
- A. He actually has a couple of different types of blunt force trauma. A contusion is simply a bruise bleeding into the subcutaneous tissue, which shows up with swelling, purple, blue, or red discoloration. And an abrasion is a scrape in the skin where the tops of the skin is actually scraped off. And the injuries up on his forehead, I think, were more abrasions than contusions.
- Q. And were there any abrasions, lacerations, contusions anywhere else on the head of Saul Flores in your review in this case?
- A. He had several injuries around the face and the forehead. He also had a laceration inside the lip on the right side. It's a little hard to see in that photograph, but the right side of the lip was swollen. It was more on the inside of the lip.

```
State's Exhibit 119. What does that show us
1
        Q.
2
   (indicating)?
3
            This Mr. Flores' right hand. His hands were
        Α.
4
   actually bound. There was a ligature around the wrist.
   Well, at least around the right wrist at this point.
5
   This was a flannel cloth. There was also a rope as
6
7
   well.
          There was indentations of the skin corresponding
   to the rope and there was actually hemorrhage in the
8
   subcutaneous tissues under that.
10
                 There is also an abrasion a little further
11
   down the back of the hand. There was contusions around
12
   that. In other words, the skin is scraped off, but
13
   right around that you will see that the skin is
   discolored purple. So, it's an abraded contusion.
14
15
            So, the purple coloring, is that consistent
   with some type of bruising in layman's terms?
16
            That's correct.
17
        Α.
18
            The red mark here indicated in the middle of
        0.
   this hand in State's Exhibit 119, explain -- can you
19
20
   tell us -- is that -- did you say that would be
21
   characterized as an abrasion?
22
            That's correct. So, again, it's a little hard
23
   to see on the projected photograph, but there is an
```

abrasion and then surrounding that is a purple

contusion. Again, an indicator of blunt force trauma.

24

```
So, there was impact against some object. And there is no pattern to that. So, we can't tell what that object was, other than some blunt force instrument.

Q. And we use that word a lot in our line of work,
```

- Q. And we use that word a lot in our line of work, blunt force trauma, but what does that essentially mean?
- A. It's an impact against some object without a sharp edge. So, you know, like this chair handle, your fist, a hammer, anything like that.
- Q. Consistent with being struck with something like you've just described?
- 11 A. Correct.

- Q. And then finally I will show you State's
 Exhibit 120. Anything about 120 that stands out to you?
- A. Yeah. His ankles were tied together with some kind of terrycloth ligature. And so, his ankles are still tied in this photograph. Wrapped within that ligature is an extension cord of the type that I referred to earlier. Like, you know, two wires side-by-side. So, it's that type of cord that would produce the same type of mark we see on Mr. Flores' neck.
- Q. Dr. Wolf, I know that you testifying in the nature you have both last week and this week is a little unique; isn't that right? Unique in the sense that you weren't personally involved with either of the actual

```
autopsies?
1
2
        Α.
            Right. It's not that infrequent that we're
   called to testify on somebody's else work.
3
             Right. And to do that, you've testified you
4
        Q.
   reviewed all of the documents and what you had as
   resources in this case, correct?
6
7
        A. Correct.
            As part of that, you said that you looked at
8
        Q.
   the original autopsy report of Dr. Narula?
10
        Α.
             Yes.
11
            And is it common in the performance of
        Ο.
12
   autopsies to do any kind of testing, toxicology wise or
   otherwise, on the complainants -- or the deceaseds when
13
   you perform autopsies?
14
           We usually do.
15
        Α.
16
            And was toxicology testing performed in this
17
   case?
18
            Yes.
        Α.
19
             Was there any indication or presence of drugs
        Q.
   or otherwise in Saul Flores' body?
20
21
            Yes. He had cocaine in his blood.
        Α.
22
                 MR. WOOD: I will pass the witness, Your
23
   Honor.
24
                 THE COURT: Okay. Mr. Cornelius, you may
25
   proceed.
```

CROSS-EXAMINATION 1 2 BY MR. CORNELIUS: 3 Okay. Dr. Wolf, how are you this afternoon? Q. Good. 4 Α. Turning -- do you have a copy of the protocol 5 Q. up there? 6 7 Α. Yes. Turning to Page 4, I want to talk to you about 8 Q. the hands for a minute. The very top paragraph, not even the full paragraph, it talks about the right hand. 10 11 Do you find it there? 12 Α. Yes. It says that -- well, the only injury -- you 13 Q. tell me if this is correct -- concerning the right hand, 14 15 it says: The right hand dorsally along the thumb showed 16 an abrasion measuring one-half inch and three-quarters 17 of inch with hemorrhage in the underlying soft tissues. 18 Correct? 19 Well, three-eighths, but, yes. Yeah. Α. 20 Q. Okay. Did you see any evidence of any other 21 injuries to that hand? 22 Α. Not the hand itself. As I mentioned, there's 23 injuries at the wrist. 24 Q. At the wrist. 25 A. But, no.

```
So, an abrasion on his right thumb, correct?
1
        Q.
2
             Well, that was the injury we looked at.
        Α.
             All right. That's the on the jury saw?
3
        Q.
             That's correct.
 4
        Α.
             Okay. That was it on the right hand?
5
        Q.
             That's correct.
 6
        Α.
7
             And in addition to the photographs in the case
        Q.
8
   and the protocol which was typed, are there also
   radiographs or x-rays?
             If they were already taken, they were not
10
11
   available for my review.
12
             Would that be a typical part of the autopsy
        Q.
   process to see if there were any broken bones?
13
            No, not in this type of the case. We can
14
15
   generally tell if there is a broken bone.
16
             Okay. Particularly, in the hands?
        Q.
17
        Α.
             Yes.
18
             There didn't appear to be any broken bones in
        Q.
   the right hand, correct?
19
             That's correct.
20
        Α.
21
             The only injury is the one the jury saw?
        Q.
22
        Α.
             That's correct.
23
             On the left hand, again, it says there was an
```

abrasion on left hand on the little finger, right?

That's correct.

24

25

Α.

- Q. On the knuckle of the little finger?
- 2 A. Right. Just distal to means down on the
- 3 finger.

6

7

- 4 Q. Three-eights of an inch by three-sixteenths of
- 5 an inch, correct?
 - A. Yes, that's correct.
 - Q. No other injuries described in the autopsy protocol to the left hand and no reason to think any bones were broken in the left hand, correct?
- 10 A. That's correct.
- Q. Is there anything in here indicating that the doctor who did the autopsy found any cigarette burns anywhere on the body?
- 14 A. No. There was nothing described as a burn.
- Q. And if there were, that would certainly be described in an autopsy protocol, correct?
- A. Sometimes it's difficult to tell an abrasion
 from a burn, but there was nothing described
 specifically as a burn.
- Q. Okay. So, I mean, as you studied this case,
 would you be able to tell the jury that this person had
 some fresh cigarette burns on his body or not?
- A. There was nothing that looked like a cigarette burn to me.
- 25 Q. Okay. Now, y'all also look for needle tracks,

```
right, when you do an autopsy?
1
2
        Α.
            Yes.
3
             There were some needle track scars found on one
        Q.
   of the arms, correct? That's on Page 4 at the top.
4
5
        Α.
            Yes.
6
            No fresh needle marks, correct?
        Q.
7
            That's correct.
        Α.

            None in the neck, none in the arms, none
        Q.
   anywhere -- recorded anywhere, correct?
10
             That's correct.
        Α.
11
        Ο.
             The only ones were old because they were
12
   already scarred, right?
13
        A. Yes.
14
        Q. And did he have a broken neck?
15
        A. No.
16
                 MR. CORNELIUS: All right. I will pass the
17
   witness.
18
                 THE COURT: Anything further, Mr. Wood?
19
                 MR. WOOD: I have nothing further for this
20
   witness.
21
                 THE COURT: Okay. He may be excused then,
22
   correct?
23
                 MR. WOOD: No objection.
24
                 THE COURT: You may step down, Dr. Wolf.
25
   Thank you very much.

1
                 THE WITNESS:
                                Thank you.
2
                 THE COURT: Please call your next.
3
                 MR. WOOD: The State calls Micah Webb.
                 THE BAILIFF: Your Honor, the officer
4
5
   previously testified and was previously sworn.
6
                 THE COURT:
                              Thank you.
7
                 You may proceed.
8
                 MR. WOOD: Thank you, Your Honor.
9
                           MICAH WEBB,
   having been first duly sworn, testified as follows:
10
                       DIRECT EXAMINATION
11
   BY MR. WOOD:
12
13
        Q.
             Good afternoon, Mr. Webb.
14
           Hello, sir.
        Α.
15
             Can you reintroduce yourself for the jury?
        Q.
16
            Micah Webb. District attorney's office
        Α.
17
   investigator.
18
            And, Mr. Webb, you are the same Micah Webb that
   testified last week in this trial; is that right?
19
20
        Α.
             Yes, sir.
21
             And I believe last week you told us that you
22
   work in the capacity as an investigator here in the
23
   D.A.'s office, right?
           That's correct.
24
        Α.
25
        Q. And at some point during your assignment here,
```

```
you were asked to help with the investigation of this
1
2
   case against Obel Cruz-Garcia?
3
        Α.
             Yes.
4
             And specifically I want to direct your
   attention as it relates to today regarding a time in the
5
   late -- late 2011, around that timeframe. Was that a
6
7
   time that you were already working on this case?
8
        Α.
             Yes, sir.
             And during that time, did you have an occasion
        Q.
   to go to the jail and meet with a potential witness by
10
11
   the name of Carmelo Martinez Santana?
12
             Yes, sir.
        Α.
13
        Q.
             And is that person also the person we know as
14
   Rudy?
15
             Yes, sir, it is.
        Α.
16
        Q.
             And was that after a time that Rudy had been
   brought to Harris County from Pennsylvania?
17
18
        Α.
             Yes, sir.
             And were you there and part of that initial
19
        Q.
20
   conversation that the Harris County District Attorney's
21
   Office had with Rudy once he was brought here?
22
        Α.
             Yes, sir.
23
             And was the original purpose in meeting with
24
   Rudy to find out what information he had regarding the
25
   kidnapping and murder of Angelo Garcia, Jr.?
```

```
Yes, sir, it is.
1
        Α.
2
             And was that conversation with Rudy -- well, I
        Q.
   assume that was a lengthy conversation?
3
             Yes, sir.
4
        Α.
             Was there an opportunity during that
5
   conversation with Rudy where he was asked if he had any
6
7
   additional information that he wanted to provide?
             Yes, sir.
8
        Α.
             And at that time, did Rudy give some additional
        Q.
10
   information?
11
        Α.
             Yes, sir.
12
             Without going into those details, did some of
        Q.
   that information involved the murder of another
13
14
   individual unrelated to Angelo Garcia, Jr.?
15
             Yes, sir, it did.
        Α.
16
             When you learned of that information, was that
17
   information a surprise to you?
18
        Α.
             Yes.
19
             Was that new information, regarding the
        Q.
20
   different murder, anything that you had come across in
21
   your investigation up to that point?
22
        Α.
             Yes, sir, it was new.
23
             After learning of that information, did Rudy go
        Q.
24
   on to provide more information about that murder?
```

Yes, sir.

Α.

```
And was that involving a murder -- well, I will
1
        Q.
2
   withdraw that.
3
                 At the time that Rudy shared that
   information, did you or anyone else in that room offer
4
   Rudy anything in exchange for telling that information?
5
        Α.
             No, sir.
6
7
             Did you promise him anything related to that
        0.
   new information he had provided?
8
        Α.
            No, sir.
9
             To your knowledge, at any point in time has
10
11
   Rudy ever been offered or promised anything related to
12
   that information?
        A. Not that I'm aware of.
13
             After you obtained that information, what did
14
        Q.
   you then do with that information?
15
16
             I queried our various law enforcement
   databases, including the HPD system, which is called
17
18
   OLO, and basically researched the details that Rudy had
   provided and was able to identify what I thought to be
19
20
   the incident that he was referring to.
21
        Q.
             Did you have pretty basic information at that
22
   point?
23
             Yes, sir.
        Α.
             Without going into details, just generally what
24
25
   pieces of information did you have?
```

```
If memory serves me, he identified the --
1
        Α.
2
                 MR. CORNELIUS: Objection to the hearsay.
3
                 THE COURT: That's sustained.
             (By Mr. Wood) What key points did you have to
4
        Q.
   continue your investigation at that point?
5
6
             I had a rough location, the details of the
7
   dumpster, and a rough estimate of what time period that
   it happened.
8
            Anything regarding the deceased in that case?
        Q.
10
             I don't recall, but I think he might have had a
11
   nickname or first name, but I don't remember
12
   specifically.
            And you took that information and then started
13
        Q.
   using some of the resources you have?
14
15
        Α.
            Yes, sir.
16
            And what were your results of that?
17
             I was able to identify an unsolved murder.
                                                          Ι
18
   can't remember what date, but it was the apartment
   complex that fit his description. It involved some of
19
20
   the other details that he had provided in that
21
   interview. And I was also able to -- I think I already
22
   said this, but it was identified as an unsolved murder.
23
        Ο.
            And was that a case that the Houston Police
24
   Department had originally worked?
25
        A. Yes, sir, it is.
```

- And if -- does the date of July of 1989 sound 1 Q. 2 about accurate? That sounds about right. 3 Α. And after you kind of put those pieces together 4 Ο. and thought that you had the offense for what had been 5 described to you, what did you do then? 6 7 I contacted HPD's Homicide Division. And I believe I contacted specifically their Cold Case Unit 8 and just told them what I had in hopes that they would run with it. 10 11 Ο. And is it fair to say from that point, the 12 piecing together of that case started happening? A. Yes, sir. 13 To your knowledge, at that point in time the 14 15 information that you were provided in that initial 16 meeting with Rudy, had there been any other activity on this case since the time it was investigated? 17 18 I don't believe so. Α. MR. WOOD: I will pass the witness. 19 20 THE COURT: Thank you, Mr. Wood. 21 Mr. Cornelius. 22 CROSS-EXAMINATION 23 BY MR. CORNELIUS: 24 Q. Mr. Webb, has Rudy ever been charged with
- 25 either this capital murder case this jury's tried or

```
this murder case that you researched?
1
2
        A. No, sir.
3
                 MR. CORNELIUS: May I have just a moment,
   Judge?
4
5
                 THE COURT: Yes.
                 (Pause)
6
7
                 MR. CORNELIUS: Pass the witness.
                 THE COURT: Thank you.
8
9
                 May this witness be excused?
                 MR. WOOD: No objection, Your Honor.
10
11
                 MR. CORNELIUS: No objection.
                 THE COURT: You may step down, sir.
12
13
                 THE WITNESS: Thank you.
14
                 THE COURT: Please call your next.
                 MR. WOOD: Your Honor, if I may have one
15
16
   minute.
17
                 (Pause)
18
                 MR. WOOD: Your Honor, the State calls
19
   Darryl Novak.
20
                 THE COURT: Has this witness been sworn?
21
                 MR. WOOD: I don't believe he was sworn
22
   yesterday, Your Honor.
23
                 THE BAILIFF: He has not been sworn, Your
24
   Honor.
25
                 THE COURT: Please raise your right hand.
```

```
1
                  (Witness sworn)
2
                  THE COURT: Please speak into the
   microphone and keep your voice up.
3
                 MR. WOOD: Thank you, Your Honor.
4
5
                          DARRYL NOVAK,
   having been first duly sworn, testified as follows:
6
7
                        DIRECT EXAMINATION
   BY MR. WOOD:
8
        Q.
             Good afternoon, Mr. Novak.
10
             Good afternoon.
        Α.
11
             Can you introduce yourself?
        Q.
12
             I'm Detention Officer Darryl Novak.
        Α.
             And Mr. Novak -- can I call you Officer Novak?
13
        Q.
14
        Α.
             Sure.
15
             Officer, how are you employed?
        Q.
16
            At the Harris County Sheriff's Department.
        Α.
17
             And you said you're a detention officer, right?
        Q.
18
             Yes, sir.
        Α.
19
             How long have you been with the Harris County
        Q.
20
   Sheriff's Department?
21
        Α.
             April of 2007.
22
             And have you been employed as a detention
23
   officer that entire time?
24
        Α.
            Yes, sir.
25
        Q. Are you assigned over at the Harris County
```

```
Jail?
1
2
            Yes, sir.
        Α.
             Tell me what - well, tell me first what some of
3
        Q.
   your current responsibilities are.
            As of right now, we have an annual bid on the
5
   charge of recreation.
6
7
            And what does that involve?
        Ο.
             Every inmate or every cell block has three
8
        Α.
   hours of recreation allowed to them per stay a week.
10
            And what other responsibilities have you had as
11
   a detention officer?
12
             Working a pod, care, custody, and control,
        Α.
   basically, of the inmates' wellbeing. Making sure
13
   they're at the right housing location and then
14
15
   controlling their movement.
16
            And when you say a pod, just generally describe
        Q.
   to the ladies and gentlemen what that means.
17
18
            Every floor has roughly seven pods. The upper
        Α.
   floors, it's high risk, you've got twelve pods, you've
19
20
   got two tanks. The lower floors, you have four cell
21
   blocks. Within those cell blocks, you have up to 29
22
   inmates. So, you're roughly in charge of 116 inmates.
23
        Q.
             So, there are four pods --
            Four cell blocks.
24
        Α.
```

Q. Four cell blocks within a pod?

- 1 A. Within a pod.
- Q. And up to 29 inmates per cell block?
- 3 A. Correct.
- Q. Okay. And when you worked -- in working as maintaining a pod, what do you have to do? What are some of the things you have to do?
- A. Get them out for court, change their laundry, afford them recreation, visitation, attorney visits, church.
- 10 Q. So, generally, you supervise kind of the flow 11 of what happens within those cell blocks?
- 12 A. Normal operations, yes, sir.
- Q. And back in September of 2012, what were your responsibilities -- first, were you employed as a
- 16 A. Yes, sir.

detention officer?

- Q. And what were your responsibilities back in September of -- this past September?
- 19 A. Are you talking about a specific date.
- 20 Q. Well, generally, were you maintaining a cell
- 21 block at that time?
- 22 A. Yes, sir.
- Q. And was there a particular area of the jail you were assigned to?
- A. I was assigned to 2-G pod. I was assigned

```
there for roughly a year.
1
            And 2-G pod, is that -- does that signify a
2
   specific location or what does that mean?
3
             It's a specific location within that pod. Like
4
        Α.
   I said, there is four cell blocks, you've got one side
5
   2-G-1, 2-G-2, 2-G-3, 2-G4.
6
7
            Were you working with any individual at that
        Ο.
   point or working alone?
8
             I was working with my partner, Deputy Bonner.
        Α.
             I want to direct your attention to September
10
11
   23rd of 2012. Do you remember that date?
12
            Yes, sir.
        Α.
            And was there a particular incident involving
13
        Q.
14
   Obel Cruz-Garcia that stands out in your mind on that
   date?
15
16
           Yes, sir.
        Α.
17
            And was Obel Cruz-Garcia assigned to 2-G pod at
        Q.
   that time?
18
19
            He was assigned to 2-G-4.
        Α.
20
        Q.
             2-G-4?
21
            Yes, sir.
        Α.
22
            And you stated that that was a pod that -- if
        Q.
23
   I'm using the wrong words, I apologize, but that was an
24
   area that you had been assigned for some time?
25
        A. Yes, sir.
```

```
And was Obel Cruz-Garcia an individual that you
1
        Q.
2
   were familiar with or you just knew from being assigned
   to that area?
3
4
            Just being assigned to that area until, like I
   said, his infraction.
5
6
            And do you see that individual here in the
7
   courtroom today?
            Yes, sir.
8
        Α.
            Can you identify something that person is
        Q.
   wearing and point that person out?
10
11
        Α.
            He is wearing a blue shirt and a tie.
12
                 MR. WOOD: Your Honor, if the record would
   reflect he has also identified the defendant?
13
14
                 THE COURT: The record will so reflect.
15
             (By Mr. Wood) On September 23rd of 2012, what
        Q.
   was happening in that 2-G-4 pod that was any different?
16
            On every Sunday, the inmates are issued a
17
        Α.
18
           They have a two-hour window to shave and shave
   only. At recreation they are allowed, Mondays and
19
20
   Tuesdays, to cut hair with clippers. All inmates were
21
   advised mishandling a county razor would result in
```

Q. Let me stop you there. So, Sundays are the razor day, basically?

22

23

24

25

disciplinary action.

A. Razors are -- that's the only day that they get

```
and receive razors.
1
2
            So, if an inmate wants to shave, it's got to be
   on a Sunday?
3
            Yes, sir.
 4
        Α.
            Are those razors handed out at -- were those
5
   razors handed out a specific time?
6
7
            Yes, sir. Every Sunday, it was the same
        Α.
   routine, between 7 and 9 o'clock. They are supposed to
8
   be passed out before 7:00 and picked up no later than 9
10
   o'clock before the trays gets there.
11
            So, there has to be a two-hour window to work
12
   from?
13
        Α.
           Yes, sir.
            Okay. And is there a process of signing razors
14
15
   in and signing razors out for inmates?
16
            Yes, sir.
        Α.
           How does that work?
17
        Q.
18
            Every shift conducts an armband T-card count.
        Α.
19
   Lights come no later than 7:00 in the morning. When we
20
   go in and do count, they are issued a log if it's a
21
   haircut or a log sheet for a razor. Inmates sign the
22
   full name, their SPN number. And then when we go in and
23
   conduct count, we collect the paper when the rovers
```

25 that day. As we are doing count, we go down the list

bring us the razors for the assigned count we have for

```
and check off their name. There's like three different
1
2
   spots: Was an inmate afforded the opportunity to get a
   razor, was it collected, and was it altered.
3
        Q.
            So, you first go through and kind of tally up
4
   who is asking for a razor that day. Is that fair?
        Α.
            Correct.
6
7
            And then once that number is obtained, then
        Ο.
   eventually when those razors are handed out, they are
8
   actually signed out to those individuals?
            It's assigned to that individual. And we also
10
11
   tell them, when we collect them -- and it was translated
12
   via one of the rovers -- that they're responsible for
13
   that razor, any disassemblement of that razor they would
   be charged with it if they turned it back in.
14
15
            And are those instructions that you give
16
   personally every time you -- on a Sunday when you hand
   out those razors?
17
18
            Every Sunday, yes, sir.
19
            And were those same instructions given on
        Q.
20
   September 23rd of 2012?
21
        Α.
            Yes, sir.
22
            And tell the ladies and gentlemen of the jury
23
   exactly what is that instruction?
```

A. Same thing during count. Always announce count time, get up, make up your rack, sheets around your

24

```
mattress, get it tucked in, remove the knots from your
1
2
   sheets and blankets. Anything under your mattress is
   considered contraband. Place it inside your commissary
3
   bag. Inmates are not allowed to wash any clothing or
   linen. They hang it on the back of their racks, the day
5
   room tables. It's unsanitary. They're not to -- like I
6
   said, remove all wet laundry and linens from all of the
7
   racks and day room tables, have a seat at the table for
8
   count. Once we do count, like I said we collect the
10
   razor sheets, start going down the list, pass out the
   razors, check them off individually. Each person gets a
11
12
   razor.
13
        Q. And what specific instructions regarding the
   razors were given on that day?
14
            Any disassemblement of razor would result in
15
   disciplinary action.
16
17
            And after the razors were handed out on
        Q.
18
   September 23rd, 2012 -- well, rather, was a razor signed
   out to Obel Cruz-Garcia on that day?
19
20
        Α.
            Yes, sir.
21
            And after razors were handed out in that cell
        0.
22
   block, what happened next?
23
            When we collect the razors, there is --
24
   depending on who is the vendor is that day, there is two
25
   types of plastic razors. One has a double blade, one
```

```
1
   has a single blade.
2
                 Now, once you've been collecting razors and
   you notice the razors, one of the razors has two divots
3
   on the left side and the right side. One of the other
4
   razors has a single divot. Well, these guys will pop
   the top off, they use the blades, they'll put them in
6
7
   plugs, cut wires, take two rigs out of it. When I
   picked up Mr. Cruz's razor, it had been altered. The
8
   plastic top had been popped off and the original razor
   wasn't in there. It had an old razor from a previous
10
11
   time that he was issued a razor.
12
            So, when you discovered that altered razor,
        Q.
13
   what did you do?
            I informed him that he was being written up for
14
15
   destroying county property, altering county property,
16
   refusing to obey an order.
17
             Did you give him an opportunity to -- I'm
18
   sorry.
19
                 Did you request that he go retrieve the
20
   razor that was missing?
21
        Α.
             Yes.
22
             Or the razor blade.
        Q.
23
        Α.
             The razor blade.
24
        Q.
             Okay. And did he do that?
25
             Yes.
        Α.
```

- Q. And did he return to you with that razor blade?
- A. He returned, basically, an extra razor blade as well.
 - Q. Okay. And what do you mean by an extra razor blade?
- Like I said, that one consisted of two blades. 6 7 What they usually do, most inmates, they use it to cut hair. Like I said, they'll cut wires, make tattoo rigs, 8 cut sheets up. Usually when that blade gets dull, they try to swap it out much. Now, they get commissary. On 10 11 commissary they get the Ramon noodle soups. Within that 12 Ramon noodle soup, they have an open package with the seasoning in it. Some of these guys will take out a 13 razor blade and switch it with that aluminum to make it 14 15 look like a razor.
 - Q. So, in Mr. Cruz-Garcia's case, you stated to him to go and retrieve the razor blade?
- 18 A. Yes.

4

5

16

17

- Q. And he brought back a razor blade to you?
- A. He brought back the initial razor blade that was in that one; and like I said, the one that was in there was one of the older ones.
- Q. Okay. So, basically, in your estimation he had switched out the razor blade, one of the razor blades in that razor with an old razor blade?

- A. Correct.
- 2 Q. So, the fresh razor blade was something he went
- 3 and retrieved?

- A. Correct.
- 5 Q. From where you were, were you able to tell
- 6 where he retrieved that from?
- 7 A. There was three inmates with the same deal.
- 8 | So, it -- they went back to their beds and probably
- 9 retrieved it underneath their mattress, somewhere around
- 10 | their bunk areas.
- 11 Q. Okay. So, that's not something you saw with
- 12 | your own eyes. You just knew that he brought it back to
- 13 | you?
- 14 A. Correct.
- 15 Q. After he returned the razor blade to you, what
- 16 | happened at that point?
- 17 A. I had Detention Officer Flores -- like I said,
- 18 he's bilingual. He translated and asked him -- like I
- 19 said, all inmates are afforded the opportunity to make a
- 20 statement. All three of the inmates refused to submit a
- 21 written statement at that time. I think he went to
- 22 disciplinary court on September 27th and he was charged
- 23 | 13 cents for disassembling the county razor.
- Q. And then a report is generated on -- from you
- 25 detailing what your findings and your -- what happened

```
in that incident?
1
2
        Α.
            Correct.
             It seems to be a very thorough process in
3
        Q.
   handing out these razors and retrieving the razors.
                                                          Ιs
   that fair?
5
        Α.
            Correct.
6
7
            And then also in collecting and noting the
        Ο.
   state of those razors when you get them back. Is that
8
   right?
10
        Α.
             Correct.
11
            Are there any safety concerns from your
12
   standpoint in the handing out and using of these razors?
            When I work overtime, you will catch guys --
13
        Α.
   like I said, they are allowed that two-hour window.
14
   I've worked in the pods where I've seen inmates cut
15
16
   themselves.
17
                 MR. CORNELIUS: Judge, I object to this as
18
   being speculation and not relevant to this particular
   case and this particular defendant.
19
20
                 THE COURT: Is there any relevance?
21
                 MR. WOOD: Well, Your Honor, I would say
22
   that it's relevant to the -- obviously, the nature of
23
   what we're talking about and the safety of those
24
   individuals in the jail.
25
                 THE COURT: Okay. You can ask that
```

```
specific question, but do not go into any other details
1
2
   of what other inmates have done. It will be sustained.
                 MR. WOOD: Okay.
3
             (By Mr. Wood) Officer Novak, is there a safety
4
        Q.
   concern in the distribution of these razors in your job?
5
6
        Α.
            Yes, sir.
7
             Is that regarding your safety as well as
        Q.
   others' safety inside the jail?
8
        Α.
            Yes, sir.
             Including workers, yourself, inmate, other
10
11
   individuals?
12
             Yes, sir. Every shift conducts a cell search
        Α.
13
   once a month --
14
                 MR. CORNELIUS: Objection. Nonresponsive.
15
   It does not include my client's extraneous matter, which
16
   I object to.
17
                 THE COURT: And your first objection was
18
   what?
19
                 MR. CORNELIUS: Nonresponsive.
                 THE COURT: That's sustained.
20
21
        Q.
             (By Mr. Cornelius) Mr. Novak, you didn't have
22
   anything to do with the actual assessing of punishment
23
   or discipline of Obel Cruz-Garcia related to this
24
   incident, did you?
25
        A. No, sir. That's part of disciplinary.
```

```
MR. WOOD: I pass the witness.
1
2
                 THE COURT: Mr. Cornelius.
 3
                 MR. CORNELIUS: May I have a moment, Judge?
                 THE COURT: Yes.
 4
                  (Pause)
 5
6
                        CROSS-EXAMINATION
7
   BY MR. CORNELIUS:
             Officer Novak, my name is Skip Cornelius.
8
                                                         Ι
   don't think we've ever met. We've certainly never
   discussed this case before, correct?
10
11
        Α.
            No, sir.
12
            You work in the jail, obviously.
            Yes, sir.
13
        Α.
             So, the jail keeps pretty meticulous records of
14
15
   any kind of jail infractions that the inmates may do,
16
   correct?
17
        A. Correct.
18
            And they're permanent records, right?
             I'm not part of classification, so I couldn't
19
20
   say.
21
             So, if somebody's been in the jail, let's say,
        Q.
22
   five years or one year or one year, five months, or
23
   whatever the case might be, it's pretty easy to
24
   determine what their jail infractions, if they have any,
25
   would be, correct?
```

```
Are you talking about like prior write-ups?
1
        Α.
2
             Yeah.
        Q.
            No, sir. We can only pull up the write-ups
3
        Α.
4
   that we do.
            But I'm talking about the State, the D.A.'s
5
   office, or even a defense lawyer, if they want to, could
6
7
   subpoena the records that are kept --
           Yes, sir.
8
        Α.
             -- written records that detail these incidents,
        Q.
   if they are any, correct?
10
11
        Α.
            Yes, sir.
12
            And you wrote up an offense report for this?
13
        Α.
            Yes, sir.
            And in your offense report, you said on that
14
15
   particular day that you told the inmates if they
16
   disassemble the count-issued razors to cut hair, they
   were going to have disciplinary action.
17
18
        Α.
             Correct.
             That's what you put in your report?
19
        Q.
20
        Α.
             Correct.
21
             Because they do that, right?
        Q.
22
        Α.
             They do it, but they're not supposed to. Yes,
23
   sir.
24
             I know they are not supposed to, but they do
25
   that. And three guys, you wrote in your report,
```

```
including my client, you said each turned in a
1
2
   disassembled county razor.
        A. Yes, sir.
3
            I don't find anything in your report about
4
   going back and getting some other razor, but you said
5
   that happened?
6
7
            Yes, sir. I didn't write him up for possession
        Α.
   of a weapon because he voluntarily turned it in when I
8
   asked him to go get it.
            Okay. And then you note that he had to pay the
10
11
   county back 13 cents for the razor, correct?
12
            That would be disciplinary, yes, sir.
        Α.
13
        Q.
            Well, do you know if he even had any discipline
   in this?
14
            I'm not disciplinary. I generate the report
15
        Α.
16
   and they -- disciplinary calls them down to sanction
17
   their actions. Like I said, there's a price list for
18
   like mattresses, sheets, blankets. They have the price
19
   list.
20
        Q.
            So, you don't know if he had any discipline?
21
            Well, apparently he's had it. Like I said, the
   report has been generated. I believe he was found
22
23
   guilty.
24
        Q. Okay. That's what I'm getting at. He got
```

seven days loss of visitation and commissary, right?

```
Did you read that?
1
2
             I think it was probated for seven days.
             Well, actually, seven days, but it was probated
3
        Q.
   for 15 days. Right?
4
             Correct.
5
        Α.
6
             So, this incident resulted in him being
   essentially fined -- well, maybe not fined. Getting
7
   seven days loss of privileges probated for 15 days, and
8
   he had to, as a condition I guess of the probation, pay
   the county back the 13 cents?
10
11
        Α.
            Correct.
12
                 MR. CORNELIUS: Pass the witness.
13
                 THE COURT: Do you have anything further,
   Mr. Wood.
14
15
                 MR. WOOD: Briefly.
16
                      REDIRECT EXAMINATION
   BY MR. WOOD:
17
            Mr. Novak, obviously razor blades can be used
18
        0.
   to cut hair, right?
19
20
        Α.
            Right.
21
        Ο.
           A razor blade can be used for many other
22
   things, can it not?
23
        Α.
            Yes.
24
        Q. A razor blade can be used to cut or harm
25
   another individual, can it not?
```

```
1
        Α.
             Correct.
2
             And this is a particular concern inside a penal
   institution, wouldn't you agree?
3
            Yes, sir.
4
        Α.
            For both -- for the safety of everyone
5
   involved?
6
7
        Α.
            Yes, sir.
                 MR. CORNELIUS: Objection, Judge. It's
8
   been asked and answered, all these questions have.
10
                 THE COURT: That's overruled, but let's
11
   move along.
12
             (By Mr. Wood) And you have seen in your
        Q.
   experience working as a detention officer all of these
13
   years razor blades are cutting instruments used for many
14
   different things?
15
16
             Correct.
        Α.
17
             So, your concern on September 23rd, 2012 was
18
   not just using a razor blade to cut hair, it was also
   for the safety of you and others?
19
20
        Α.
             Correct.
21
                 MR. WOOD: I will pass the witness.
22
                 THE COURT: Mr. Cornelius, anything?
23
                       RECROSS-EXAMINATION
   BY MR. CORNELIUS:
24
25
        Q. But you didn't write him up for anything else,
```

```
did you?
1
2
        A. No, sir. I just got him for destroying county
   property, altering county property, and failing to obey
3
   an order.
        Q. And he didn't use that razor blade for any
5
   purpose at all that you know of, right?
6
7
        A. No, sir.
                 MR. CORNELIUS: Pass the witness.
8
9
                 MR. WOOD: Nothing further.
10
                 THE COURT: Very good. May this witness be
11
   excused?
12
                 MR. CORNELIUS: Yes, Your Honor.
                 MR. WOOD: Yes, Your Honor.
13
14
                 THE COURT: You may step down, sir.
15
                 Please call your next.
16
                 MS. TISE: The State calls Bonnie Fiveash.
17
                 THE COURT: Let's take a five-minute break.
18
   The jury might need a little bit of a break before the
   next witness comes in.
19
20
                 THE BAILIFF: All rise.
21
                 (Recess)
22
                 (Open court, defendant and jury present)
23
                 THE COURT: Please be seated.
24
                 We're ready to proceed in Cause
25
   No. 1384794. The jury is present. Mr. Cruz-Garcia is
```

```
present at counsel table with his attorneys.
1
2
                 Are you ready to proceed with the next
3
   witness?
                 MS. TISE: I am, Judge.
4
5
                 And before the break, I had called Bonnie
6
   Fiveash. She's here and available, but there is another
   witness who I think will be a little more brief that I
7
   would like to call next. His name is Sergeant David
8
   Davis.
10
                 THE COURT: Okay. Please bring him in.
11
                 THE BAILIFF: The witness has not been
12
   sworn, Your Honor.
13
                  THE COURT: Please raise your right hand,
14
   sir.
15

                 THE COURT: Very good. Take your seat.
   Please keep your voice up. Speak directly into the

   microphone.
19
                 THE WITNESS: Yes, ma'am.

                 THE COURT: Thank you.

                 You may proceed.
22
                     DAVID ALAN DAVIS, JR.
23
   having been first duly sworn, testified as follows:
24
                       DIRECT EXAMINATION
25
   BY MS. TISE:
```

- Good afternoon. 1 Q. 2 Α. Good afternoon. Would you introduce yourself to the jury, 3 Q. 4 please? My name is David Alan Davis, Jr. I'm a 5 sergeant with the Harris County Sheriff's Office. 6 7 Okay. And, Sergeant Davis, can you tell the Q. jury specifically where you've been assigned in the 8 Harris County Sheriff's Office over your career and what 10 kind of training you've had? 11 Throughout the years, I was assigned to the 12 floors for the first two years of the sheriff's office. For the majority of my career, I was in classification 13 which handles all the inmate records. And in June of 14 15 this year, I was transferred to patrol. 16 Okay. And when you say floors with the Q. sheriff's department, you're talking over at the jail? 17 18 Yes. The old jail, 1301. Α. 19 And then you said classification? Q. 20 Α. That's correct.
- Q. And now you are on patrol?
- 22 A. Correct.
- Q. What kind of training have you had?
- A. I've had in excess of 2300 hours of TCLEOSE training, approximately 800 hours in gangs, terrorists,

```
and all the regular training that we have to have each year as a police officer.
```

- Q. How many years have you been with the sheriff's office?
- 5 A. I have been with the sheriff's office since 6 1985.
 - Q. It's fair to say since 1985, all of that time until recently had been in the jail?
 - A. That is correct.

7

8

- 10 Q. Okay. So, you are very experienced with what 11 goes on over there and what the rules are?
- 12 A. That is correct.
- Q. Okay. And you said that you were specifically assigned for many, many years to classification?
 - A. Correct. As a deputy and as a supervisor.
- 16 Q. Tell the jury what classification is?
- A. Classification is each inmate that's booked
 into the jail has to be classified according to what is
 called the objective classification plan. The objective
 classification plan simply is inmates who are charged
 with lesser offenses -- say DWI -- are not classified
 with inmates who are charged with capital murder.
- Q. Okay. And when you say "classified," is that
 basically the way y'all call it when you are determining
 where they are going to be housed and who they are going

```
to be housed with during their stay with you in the
1
2
   Harris County Jail?
             That's correct.
3
        Α.
             Okay. And are you familiar with the case of an
4
        Ο.
   individual by the name of Obel Cruz-Garcia?
5
6
        Α.
             Yes, ma'am.
7
            And can you tell us when Obel Cruz-Garcia
        0.
   arrived into the Harris County Jail on this capital
8
   murder case that we're here on today?
10
             He was booked in the Harris County Jail on
11
   February 12th, 2010.
12
             Okay. And when he was booked into the Harris
        Q.
   County Jail, how did classification assign him?
13
14
           He was classified as a high-risk inmate and
15
   placed into administrative separation.
16
            And how long did he stay in administrative
17
   separation?
18
            He was in the administrative separation from
   February 12th, 2010, through July 22nd, 2012.
19
20
        Q.
             So, by my count approximately two-and-a-half
21
   years of his time in the Harris County Jail was in
22
   administrative separation?
23
        Α.
             That would be correct.
24
        Q.
            The vast majority of his time?
```

Correct.

Α.

```
Q. And can you tell the jury what administrative separation means?
```

- A. Administrative separation is a cell block that is 24 single cells. They have a restriction in that cell block 23 hours a day and they are let out to go to the restroom, take a shower one hour a day.
- Q. Okay. And so, basically, their access to other inmates and their ability to get into trouble is limited?
- 10 A. Extremely limited.
- Q. Okay. Twenty-three hours a day locked down by yourself?
- 13 A. Correct.

6

7

- Q. Okay. Since moving out of administrative separation, is it fair to say that Obel Cruz-Garcia began to pick up a few minor violations in the jail?
- 17 A. That is correct.
- 18 Q. Okay. Are you familiar with situations where
 19 inmates have razors in jail from time to time?
- 20 A. Yes, ma'am.
- Q. And is that something that is very stringently monitored and prohibited?
- A. It is extremely prohibited because of the issuance. They have to be issued and picked up on a daily basis when they get an opportunity to shave.

```
Okay. So, would you term that a minor
1
        Q.
   violation?
2
3
            It's a prohibited weapon in the penal
        Α.
   institution once it is not picked up.
            And if a detention officer who was dealing with
5
   Obel Cruz-Garcia chose to charge him with something
6
7
   lesser, that would have been basically a kindness on his
8
   part?
        Α.
            That would be correct.
            Because by taking a razor and concealing it and
10
   holding it, you basically have a prohibited weapon in a
11
12
   penal institute?
        A. That is correct.
13
14
            What kind of danger does that present?
15
            It could be used as a slicing weapon. It could
16
   be used as a stabbing weapon, depending on how it's
17
   affixed to a pen or some other device.
18
            Okay. And those kinds of things happen all the
        Ο.
   time over there, don't they?
19
            That's correct.
20
        Α.
21
                 MS. TISE: Pass the witness.
22
                 THE COURT: Mr. Cornelius.
23
                 MR. CORNELIUS: Could I have a moment,
24
   Judge?
25
                 THE COURT: Yes.

                 MR. CORNELIUS: Judge, we don't have any
3
   questions.
 4
                 THE COURT: Very good.
                 May this witness be excused?
5
                 MS. TISE: Yes, Your Honor.
 6
7
                 THE COURT: Thank you, Sergeant Davis. You
8
   may step down.
                 Please call your next.
                 MS. TISE: Now I will call Bonnie Fiveash.
10
11
                 THE BAILIFF: Your Honor, the witness has
12
   not been sworn.
13
                 THE COURT: Okay. Please raise your right
   hand, ma'am.
14
15
                 (Witness sworn)
16
                 THE COURT: Very good. Please take the
17
   witness stand. Please keep your voice up and speak
18
   directly into that microphone.
19
                 You may proceed, Ms. Tise.
20
                         BONNIE FIVEASH,
21
   having been first duly sworn, testified as follows:
22
                       DIRECT EXAMINATION
23
   BY MS. TISE:
24
       Q. Can you introduce yourself to the jury, please,
25
   ma'am?
```

```
1
             Yes, ma'am. I'm Bonnie Fiveash.
        Α.
2
             And can you tell the jury what you do for a
        Q.
   living?
3
             I classify offenders.
 4
        Α.
             Okay. And what does that mean?
5
        Q.
6
             That means I have 21 years experience of
   classifying offenders as far as criminal sophistication,
7
   placement in appropriate jobs and the appropriate
8
   facility for their security needs.
10
             Okay. And do you have an institution that you
11
   specifically do that for?
12
            At this time, I'm statewide. I'm over all the
        Α.
   facilities in the state, which is approximately 120
13
   facilities that I oversee placing offenders at.
14
            And we're talking specifically about the Texas
15
16
   prison system, are we not?
17
        Α.
            Yes, ma'am.
            And what is your -- what is your exact title?
18
        Q.
19
             Programs supervisor III.
        Α.
20
        Q.
             Okay. What does that mean?
```

It's a state classification member which

about your background and training that enables you to

Okay. And can you tell the jury a little bit

do your job?

classifies offenders.

- A. I have 21 years experience with the Texas

 Department of Criminal Justice, all of which is under

 classifying offenders. I have worked as far as in the

 room that houses and gives the offenders their job.

 I've been in the medical department, which makes sure

 all their medical needs are met and are updated on the

 computer. Then went to classification, which is seeing

 the offenders on a personal level and making sure they

 are placed in the appropriate security level as far as

 their custody and their job according to their medical

 restrictions.
 - Q. Okay. So, as a member of classification, is it fair to say that when an individual is going to be coming to the Texas Department of Corrections, they have been sentenced on their case and they will be housed in the Texas Department of Corrections, you and the members of your committee determine as to each and every inmate that's going to come into the Texas Department of Corrections how they're going to be classified, housed, and treated while they are there?
 - A. Yes, ma'am.
 - Q. Okay. And in addition to that, do you and your fellow committee members also determine when the classification that they initially receive when they came in might change over the course of their prison

stay?

- Once we assign them to a facility, it's up to that unit's classification department to determine which 3 custody level that he needs according to his 4 disciplinary, as far as his actions once he is received 5 at that facility. 6
 - Okay. So, your statewide committee is 0. basically determining how they are going to be treated and housed initially when they come in?
 - Initial assignment and their custody level. Once they reach that that facility, it depends on his behavior where he goes from there.
 - Q. Right. And then the facility itself has their own classification employees who determine whether their classification might change during the time that they are in TDC?
 - Α. Yes.
 - What kinds of things are evaluated to Okav. determine how a person is going to be classified when they come to TDC?
 - It depends on their length of sentence, if they have a prior incarceration what their behavior was on their incarceration, their age, what facility they're going to be able to go to, because each facility is based on a certain age criteria, whether he has any

```
medical restrictions that we need to look at to make
1
2
   sure all his medical needs are set and we can take care
   of him in that respect.
3
4
        Q. And those kinds of things are part of the
   protocol that you look into?
        Α.
            Yes, ma'am.
6
7
            And you mentioned one of the things that you
        Q.
   looked into is prior incarcerations and their behavior
8
   during that time. But isn't it fair to say that you are
   limited as to what prior incarcerations you have access
10
11
   to and that would be taken into account?
12
            Yes. If we have a jail prior history, we'll
        Α.
   take that into consideration.
13
            Okay. And if he has any other TDC
14
        0.
   incarcerations, you will take that into consideration?
15
16
        Α.
            Yes.
17
            But would you have any consideration at all
18
   given to prison time spent in, say, for instance, Puerto
   Rico?
19
20
            Unless he verbalizes that in his interview with
21
   sociology, no, ma'am, we don't have access to that.
22
        Q. So, you don't have access to those records and
23
   they would not be used or taken into account in his
24
   classification unless he just happened to volunteer
```

something from that?

```
Yes, ma'am.
1
        Α.
2
             Okay. So, if I understand you, when the inmate
   comes in -- or is going to be coming into your prison
3
   institution somewhere here in Texas, you are going to
4
   look at a social history that is basically an interview
   with him, right?
6
7
             Sociology, on intake, they'll interview him.
                                                            Ι
        Α.
   won't interview him personally. All I have is what they
8
   put on the computer as far as that.
             Right. And that's going to be him reporting to
10
   a sociologist any details that might be relevant?
11
12
             Yes, ma'am.
        Α.
            And then in addition to that, you might have
13
        Q.
   some history from the jail where he had been housed
14
   before?
15
16
        Α.
            Yes.
17
             Or if he were housed in another Texas prison
18
   institution?
```

- 19 A. Yes.
- 20 Q. And that would be it?
- 21 A. Yes, ma'am.
- Q. And taking that data, you and your other committee members decide to put him in a certain classification system?
- 25 A. Yes.

```
1
        Q.
             Okay. And what -- can you tell us if that
2
   classification includes things like G-1, G-2, G-3, G-4,
3
   and G-5?
        Α.
4
             Yes.
             What does that "G" stand for?
5
        Ο.
 6
             "G" stands for general populations.
        Α.
7
             Okay. And in addition, does the classification
        Q.
   include a category called administrative segregation?
8
9
        Α.
             Yes.
             And in addition, is there a whole separate
10
11
   category for inmates who have been sentenced to the
12
   death penalty?
13
        Α.
             Yes.
14
             And they're housed on death row?
        Q.
15
             Yes, ma'am.
        Α.
16
             So, obviously, they are going to death row?
        Q.
17
             Straight to death row, yes, ma'am.
        Α.
18
             There's no classification involved.
        Ο.
19
                 I want to talk to you about those
20
   categories G-1 through G-5 that you talked about
21
   regarding general populations. Tell the jury what a G-1
22
   or G-2 inmate is.
23
             The G-1 or G-2 is basically your better
24
   inmates. They are -- you have seen the outside trustees
25
   that work outside the building. Those are G-1s, they're

So,

otherwise known as outside trustees. They can work in maintenance, they can work outside the building, you can see them working in the farm. They have very little supervision. They are checked on once an hour. You've got your G-2 offenders that are always under direct armed supervision. So, no matter what job they have, they are under supervision and they are usually in the building. Then you have -- do you want me to go on to G-3? Q. Yes. Okay. G-2s and G-3s are basically the same thing with the difference of their job. G-3 offenders are serving a sentence that is over 50 years. So, therefore, they have to do ten years flat before they can be considered for G-2. The difference in their job is they have to have direct supervision at all times. They can't have multiple access to areas of the facility. So, in other words, they work in the kitchen, which is under direct supervision, or an industry job that has a supervisor right there, or they can work in the field, which is under armed supervision outside the parameter. Then you go into your G-4s and G-5s. These

are offenders that are having problems with their

disciplinary history. They are getting in trouble.

```
they have a more restrictive custody and they don't have
1
   access to facility jobs like the kitchen or the garment
2
   factory. They can only work in the field squad. G-5
3
   offenders are your more assaultive offenders. They have
   to have a more restrictive custody. And, again, they
   can only work in the field. If they can't make it in
6
7
   G-5, what she mentioned, the administrative segregation,
8
   that's where they end up after that.
            Okay. And you've given us a lot of
        Q.
10
   information, so I want to break some of that down; but,
11
   basically, first of all, just because you have been
12
   charged with capital murder and convicted by a jury, if
13
   you are not sentenced to the death penalty, you are not
14
   necessarily started out in administrative segregation,
15
   are you?
16
        Α.
            No, ma'am.
17
            In fact, you are usually not sent to
18
   administrative segregation, correct?
19
            Correct, Correct, yes.
        Α.
20
        Q.
            In fact, you are not even started out at G-4 or
21
   G-5?
22
            No, ma'am.
        Α.
23
            Most individuals convicted of capital murder
24
   who are not sentenced to death row are treated as G-3
25
   inmates, correct?
```

- 1 Α. Yes. 2 And in this particular case, the information that you have available to you about Obel Cruz-Garcia, 3 is that your opinion that he would be treated as a G-3 4 inmate on admission to TDC? 6 Α. Yes. 7 Okay. When you talked about inmates that have Q. assaultive conduct being at the G-4 or G-5 level, is it 8 fair to say that you are talking about conduct that has occurred after they are admitted into the prison? 10 11 Α. Yes. 12 It makes no difference as far as whether Q. they're G-3 or G-4 or G-5 the severity of the offense 13 that they initially come in on? 14 15 Α. Correct, yes. 16 And so, Obel Cruz-Garcia, based on the 17 information you are aware of, would be a G-3 offender? Yes, ma'am. 18 Α. 19 Okay. And that classification status is going Q.
- 20 to determine a lot of things, isn't it?
- 21 Α. Yes.
- 22 You talked about his job. Q.
- 23 Α. Yes.
- 24 Q. But it's also going to determine how he's 25 housed, right?

```
1
             Yes, ma'am.
        Α.
2
        Q.
             Who he is housed with?
3
             Yes.
        Α.
             What kind of visitation he is allowed?
 4
        Ο.
5
             Yes.
        Α.
6
        Q.
             How he's allowed to move about in the prison?
7
        Α.
             Yes.
             Lots of things?
8
        Q.
9
        Α.
             Yes.
10
             Okay. So, a G-3 offense -- and before I go on
        Q.
   to that, let me ask you this. Just because someone
11
   comes in as a G-3 offender, does that mean they stay a
12
   G-3 offender?
13
14
        Α.
             No.
             Okay. Usually capital murderers who will be
15
16
   sentenced to life without parole will stay at least a
   G-3 their entire time in prison?
17
18
        Α.
             Yes.
19
             However, in a case where the defendant is not
        Q.
20
   subject to life without parole law, he would be able to
21
   be reconsidered for a G-2 status after ten years of
   service in prison.
22
23
        Α.
             Yes.
24
        Q.
            Correct?
25
            Yes.
        Α.

So, ten years from now, he could be moved down
1
        Q.
2
   all the way to a G-2 level?
            Yes.
3
        Α.
4
            I want to talk to you about the housing in TDC
   for an inmate who is considered a G-3 inmate. Okay?
   How is a G-3 inmate housed?
6
7
            Most facilities have cell block and dorm
        Α.
   housing for G-3 offenders. If he is living in a dorm
8
   type setting, he could be housed with other G-2
   offenders. If he is housed on a cell block with other
10
11
   G-2 offenders, he will be in the same with a G-3
12
   offender, but he could be on the same cell block as G-2
   offenders.
13
        Q. So, regardless either way, whether he is in an
14
15
   individual cell or dormitory, he is going to be with
16
   other inmates?
17
        A. Yes.
18
            And at the most restrictive level, he is going
        0.
   to have an inmate in a cell with him?
19
20
        Α.
            Yes.
21
            Okay. And in a dormitory setting, he could
   have inmates in his cell who have -- who are at a G-2
22
23
   status?
24
       A. Yes. It's an open dormitory. So, it's not a
25
   cell, yes.
```

```
Okay. And he could be housed with individuals
1
        Q.
2
   with no violent history, correct?
3
             Yes.
        Α.
4
             He could be housed with somebody there on a DWI
        0.
   third?
5
6
        Α.
             Yes.
7
             He could be housed with somebody with a
        0.
   white-collar theft case?
8
9
        Α.
             Yes.
             He could be housed with a low-level drug
10
        Ο.
11
   offender?
12
        Α.
             Yes.
        Q. How does his G-3 status interpret to the jobs
13
   that he is able to take?
14
            Like I said before, he can't have multiple
15
   access to areas of the facility like janitor jobs or
16
17
   maintenance jobs. He can only be assigned to one area
18
   of the facility, like a kitchen or an industry or work
19
   in the fields.
20
        Q.
             Okay. So, because a janitor can go all over
21
   the prison --
22
             He's not under direct supervision. He can --
23
             And I want to talk to you about that direct
24
   supervision in a minute, but let's talk about the job
25
   assignments first.
```

```
1
        Α.
             Okay.
             What sorts of job assignments might he be able
2
        Q.
3
   to take?
             Kitchen, laundry, garment factory, mattress
4
        Α.
5
   factory.
             Okay. And when assigned to those types of
6
7
   jobs, he has access to things like kitchen utensils,
   correct?
8
        Α.
            Yes.
             Tools that might be used by someone who works
10
11
   in a mattress factory?
12
        Α.
             Yes.
             Tools that might be used by somebody who works
13
        Q.
   in the laundry?
14
15
        Α.
             Yes.
16
             Opportunity to confiscate and conceal weapons?
        Q.
17
        Α.
            Yes.
18
             In addition to that -- and let me ask you this.
        Ο.
19
   Is it fair to say that that happens?
20
        Α.
             Yes.
21
             In fact, possession of a weapon happens very
        Q.
22
   frequently in TDC, does it not?
23
        Α.
             Yes.
        Q. And when individuals don't have access to a
24
25
   weapon, per se, like a knife or a gun, they make
```

```
weapons, don't they?
1
2
             Oh, yes.
        Α.
             What kinds of things do they make weapons out
3
        Q.
   of?
4
             They can get fans from the commissary and
5
        Α.
   sometimes they put the fan motors in socks and use that
6
7
   as a weapon. They can fashion metal from the fencing.
   They can use the food carts, they can get metal from the
8
   food carts. They can find metal objects anywhere and
10
   sharpen them.
11
        Ο.
             And they can sharpen plastic objects, can they
12
   not?
13
        Α.
            Yes.
14
        Q.
             They can take a chicken bone and sharpen it
15
   into a weapon --
16
        Α.
             Yes.
17
        Q.
             -- can't they?
18
        Α.
             Yes.
             And they're pretty creative, aren't they?
19
        Q.
20
        Α.
             Very, yes.
21
             And although TDC makes a lot of effort to, you
        Q.
22
   know, try to prohibit these things from happening, it is
23
   pretty common for them to be able to smuggle something
24
   in and out of, say, the kitchen area or a workplace or a
25
   rec yard and be caught with a weapon?
```

A. Yes.

- Q. When they move from one place to another in the prison, you talked about the -- what were you calling
- 4 | it, the supervision that they receive?
- 5 A. The supervision, yes.
- 6 Q. Okay. Let's talk about what that actually
- 7 means. Okay?
- 8 A. Okay.
- 9 Q. There are obviously guards that are employed by
- 10 | the prison.
- 11 A. Yes.
- 12 Q. And when individuals are moved from place to
- 13 place or when they decide to go from place to place in
- 14 the prison, the rules say that they have to be under
- 15 | supervision?
- 16 A. Yes.
- Q. Okay. And, in fact, the way that works in
- 18 reality is you may have 25 inmates proceeding from a
- 19 cell block to the chow hall to have a meal with one
- 20 | unarmed guard with them?
- 21 A. Yes.
- Q. Okay. And is it fair to say that there is a
- 23 | lot of movement that goes on without actual direct
- 24 | supervision?
- 25 A. Yes. When they are released from their cell

```
block, possibly 20 of them could go down the hallway for
1
2
   each checkpoint to the chow hall without someone right
3
   there with them, yes.
             Okay. And they also can go to the day room
4
        Q.
   without supervision?
6
        Α.
             Yes.
7
             They can go to the rec yard without
        Q.
   supervision?
8
        Α.
             Yes.
10
             They can go to medical, if they claim that they
        Q.
11
   have a medical condition, correct?
12
        Α.
             Yes.
             And they can do that without supervision?
13
        Q.
14
        Α.
             Yes.
15
             They can go to educational training without
        Q.
16
   supervision?
17
        Α.
             Yes.
18
             And they can go to eat without supervision?
        Q.
19
        Α.
             Yes.
20
        Q.
             And that happens routinely?
21
        Α.
             Yes.
22
             Let's talk about their time in the day room.
23
   Is it fair to say that in most units they can go to the
24
   day room and watch TV any time from 10:00 a.m. to 10:30
25
   p.m. in the evening?
```

```
Each facility has their own time allotment,
1
        Α.
2
   but, yes, that's safe to say.
             In fact, on the weekends may be able to stay
3
        Q.
   till midnight?
4
             It depends on the unit, but, yes.
5
             And in the rec yard or the rec room, is it fair
6
7
   to say that generally something like four hours a day is
   permissible for G-3 inmates?
8
        Α.
             Yes.
             And on up to seven hours is permissible in the
10
11
   rec yard for a G-3 inmate on the weekends?
12
        Α.
             Yes.
13
             Okay. And in that situation when they are out
   in the rec yard, there are armed guards up in the
14
15
   picket, correct?
16
        Α.
             Yes.
17
             Tell the jury what the pickets are.
18
        Α.
```

A. The pickets are stationed in areas on the outside perimeters to prevent offenders from trying to escape. They are there to fire upon them if they try to go over the fence or if there is danger that they need to alleviate inside the rec yard. They are armed because the security inside cannot be armed, of course.

19

20

21

22

23

Q. Right. And so, the pickets are fairly remote to what's actually going on down in the rec yard,

```
1
   correct?
2
        Α.
             Yes.
3
             And there are no armed guards in the rec yard?
        Q.
 4
        Α.
             No.
             And, in fact, there are no arm guards inside
5
        Q.
   the prison itself?
6
7
        Α.
             No.
8
        Q.
             Okay. Because that would be a security
   concern?
10
        Α.
             Yes.
11
             So, these guards that are walking around with
12
   20 G-3 inmates, many of whom may be capital murderers,
   basically have no way to defend themselves?
13
14
             All they have is gas, yes.
             Okay. When inmates of a G-3 status go from
15
        Q.
   place to place in the prison like the day room or the
16
   rec yard, are they shackled and cuffed?
17
18
        Α.
             No.
19
             Okay. And once they arrive at that location,
        Q.
20
   they can move about in the day room or the rec yard
21
   freely?
22
        Α.
             Yes.
23
        Q.
             Interact with other inmates?
24
        Α.
             Yes.
25
        Q. And is there anything about the clothing of an
```

```
individual who has been convicted of capital murder
1
2
   that's different --
3
        Α.
           No.
            -- from, say, a guy in there for possession of
4
   a less than a gram of cocaine?
5
6
        Α.
             No.
7
             They all are going to be wearing the same
        Q.
   prison whites?
8
        Α.
             Yes.
             And so, a guard who is dealing with them really
10
11
   has no way of knowing that the person he is dealing with
12
   has been convicted of capital murder, does he?
13
        Α.
            No.
14
             Unless the inmate volunteers that information?
        Q.
15
        A. Correct.
16
        Q. And is it fair to say that other inmates really
17
   have no way of knowing that the person they are dealing
18
   with has been convicted of capital murder?
19
        Α.
             No.
20
        Q.
             Unless the inmate tells them?
21
        Α.
             Correct.
22
             What kind of privileges does a G-3 inmate have?
        Q.
23
             The same as G-2, other than the job difference.
        Α.
24
        Q.
             Okay. Can they have visitation?
25
             Yes.
        Α.
```

```
1
            And, in fact, can they have contact visitation?
        Q.
2
        Α.
            Yes.
3
            And that means that they can be loose,
        Q.
   unshackled, and uncuffed, correct?
4
5
        Α.
            Yes.
6
        Q.
             In a room with other civilians?
7
            Yes.
        Α.
8
             These contact visitations, they basically
        Q.
   happen in a big room, do they not?
10
        Α.
             Yes.
11
        Ο.
            And there are other inmates there with their
   families?
12
13
        A. Yes.
14
          Their children?
        Q.
15
        A. Yes.
16
        Q. Their wives?
17
        Α.
            Yes.
18
            And our capital murder defendant is there
        Q.
19
   visiting his family?
20
        Α.
            Yes.
21
            All of them in one big room with no shackles or
        Q.
   cuffs?
22
23
        Α.
           Yes.
        Q. With all of those civilians?
24
25
            Yes.
        Α.
```

```
1
        Q.
             Does a G-3 inmate have access to commissary?
2
        Α.
             Yes.
3
            What's commissary?
        Q.
             Commissary is where they can go buy, basically,
4
        Α.
   free-world that we don't give him -- free-world
5
   commissary that we don't give them already. Like
6
   hygiene items, fans, radios, food items, like Bluebell.
7
            You mentioned Bluebell. They can get Bluebell
8
        Q.
   ice cream in prison, can't they?
10
             Yeah. It's very good. Any kind of ice cream
11
   that you can think of, they have. Any other food items
12
   that they don't want to eat in the ODR or the dining
   hall, they have access to.
13
14
             So, they've got like a little convenience
        Ο.
15
   store?
16
             It's a little convenience store, yes.
        Α.
17
            And they can buy stuff like Bluebell ice cream?
        Q.
18
        Α.
             Yes.
19
             And that applies to the G-3 inmates like
        Q.
20
   anybody else?
21
        Α.
             Yes.
22
            And if they have some medical incident that
23
   happens that can't be treated in the jail, it's fair to
24
   say they'll be transported out of the facility to a
25
   medical facility?
```

```
Yes. We meet their medical needs, yes.
1
        Α.
2
            Okay. And escapes could occur during events
        Q.
   like that, could they not?
3
 4
        Α.
            Yes.
            Let's talk about other than the visitation in
5
   that big visitation room with lots of civilians in
6
7
           What kind of other exposure do they have to
   there.
   civilians that aren't prison guards?
8
            Well, you have your medical personnel. You've
        Α.
   got your education personnel, your teachers, your
10
11
   principals. You have got volunteers that come in for
12
   the chaplaincy, the chaplain. And, of course,
   classification is free-world. So, there are free-world
13
   officers as well as the security officers.
14
15
            Church volunteers, substance abuse volunteers,
   those kinds of folks?
16
17
        Α.
            Yes.
18
            And, in fact, if I go up to the prison to meet
        0.
   with say you, if I walk up into the main hallway of the
19
20
   prison, I will find myself surrounded by unshackled,
21
   unhandcuffed G-3 prisoners, won't I?
```

A. Yes.

Q. They're just walking around just like you and

24 | I, right?

22

23

25

A. Yes.

```
Many of them are capital murderers?
1
        Q.
2
        Α.
             Yes.
             What kind of ways do inmates have to gain
3
        Q.
   access to contraband during their stay at TDC?
4
             Well, as much as I hate to say, the staff is
5
   one way that they can get it. They manipulate the staff
6
7
   to bring in cell phones and numerous other contraband
   that they shouldn't have. During the contact
8
   visitation, they can -- the visitors can slip them
   money, cell phones. Outside trustees that come through
10
   the building to do maintenance, they can bring things
11
12
   in. They can have multiple access to contraband, yes.
13
        Q. And guards, personnel, as you mentioned,
   employees, they get bribed?
14
15
        Α.
             Yes.
16
             That happens --
        Q.
17
        Α.
             Yes.
18
             -- with embarrassing frequency, doesn't it?
        Q.
19
             We have security measures in place, but it
        Α.
20
   happens, yes.
21
        Q.
             And you mentioned trustees, G-1 level inmates.
22
        Α.
             Yes.
23
        Q.
             Those G-1 level inmates, when they work, they
24
   are pretty unfettered, aren't they?
```

Yes. They are checked hourly, but they're not

25

Α.

```
under direct supervision, though.
1
2
             So, they're out, roaming around, driving trucks
   and doing jobs and things like that without anybody
3
   watching them?
4
5
        Α.
             Yes.
            And so, if a G-1 inmate wants to go buy drugs
6
7
   off the street corner and bring it into prison with
   them --
8
        A. Well, they can't make it to the street corner,
   but, yes, they can have people drop it off and they find
10
11
   it, yes.
12
            And that's stuff happens --
        Q.
13
        Α.
            Yes.
            -- with alarming frequency?
14
        Q.
15
            Yes.
        Α.
             What kind of contraband are we talking about?
16
        Q.
   What kinds of things do they have people bring to them?
17
18
            Marijuana, cell phones, money.
        Α.
             And you mentioned cell phones. Tell the jury
19
        Q.
20
   why those are a concern?
21
             It's pretty much a security concern because
        Α.
22
   with the gang affiliation, they can call out and make
23
   hits or they could facilitate an escape to get someone
24
   to meet them somewhere. They can have access to the
25
   Internet with the smart phones, which is a breach of
```

```
1
   security.
2
        Q.
             They can harass people on the outside?
3
             Yes, ma'am.
        Α.
             And that happens?
 4
        Q.
5
             Yes, ma'am, that's happened.
        Α.
6
        Q.
             They can set up hits on people on the outside?
7
        Α.
             Yes.
             There is a lot of things they can do with a
8
        Q.
   cell phone?
9
10
        Α.
             Yes.
11
             Okay. And that is a common occurrence for them
        0.
12
   to be caught with cell phones, correct?
13
        Α.
             Yes.
14
             You talked about them having -- G-3 inmates
        Ο.
   having jobs in the field. Correct?
15
16
        Α.
             Yes.
17
             And when they have a job in the field they are,
18
   again, a large number of inmates under the supervision
19
   of a guard possibly on horseback with a gun?
20
        Α.
             Yes.
21
             Okay. And in that particular situation, even
        Q.
22
   though they are being monitored by a guard with a gun,
23
   escapes have happened --
24
        Α.
             Yes.
25
             -- correct?
        Ο.
```

```
And even quards have been killed?
1
2
        Α.
             Yes.
3
             Are you familiar with the case of Susan
        Q.
   Canfield?
4
        Α.
             Yes.
5
6
             And who was Susan Canfield?
        Q.
7
             She was a security officer at the Wynn Unit
        Α.
   that was working in the field. Yes.
8
        Q.
             And she was an armed guard on horseback?
10
        Α.
             Yes.
11
             Okay. And what happened to her?
        0.
12
             During an escape at the Wynn Unit, her horse
        Α.
   was struck by a vehicle of offenders that were trying to
13
14
           She was a high rider, the one carrying the gun,
   escape.
15
   yes.
16
           And she was killed?
        Ο.
17
        Α.
             Yes.
18
             In fact, are there statistics done on a monthly
        0.
19
   basis about the incidents that occur in TDC?
20
        Α.
             Yes.
21
             And those statistics are compiled in a document
        0.
   called the Emergency Actions Statistics?
22
23
        Α.
             Yes.
        Q. And those statistics document the number of
24
25
   assaults that occur on a monthly basis in TDC?
```

```
1
        Α.
             Yes.
2
        Q.
             And there are a lot of them, are there not?
            Yes.
3
        Α.
            And most of them or a large number of them are
4
        Q.
5
   categorized as serious assaults?
6
        Α.
             Yes.
7
            What is a serious assault?
        Ο.
            A serious assault is when injuries are
8
   involved.
10
        Q. And injuries, are you -- is it fair to say that
11
   we're talking about something that's going to require
   more than first-aid?
12
13
        A. Yes.
14
             Something that's going to require more
   extensive medical attention?
15
16
             Yes.
        Α.
17
             Okay. And certainly in an assault with a
18
   weapon would also be a serious assault?
19
        Α.
             Yes.
20
        Q.
             Is it fair to say that guards get assaulted?
21
             Yes.
        Α.
22
             And there are instances where guards have been
        Q.
23
   killed?
24
        Α.
            Yes.
25
        Q. Is it fair to say that civilians have been
```

```
assaulted in the prison?
1
2
        Α.
             Yes.
3
        Q.
            Visitors?
 4
        Α.
            Yes.
5
            And sometimes killed?
        Q.
 6
        Α.
            Yes.
             Are you familiar with something that inmates do
7
        Q.
   called chunking?
8
        Α.
             Yes.
10
             Can you tell the jury what that is?
11
             It's where an offender holds up his urine or
12
   his feces and chunks it on an officer or an offender
   going by, or any unknown substance or hot fluid on
13
14
   offenders going by. It's a staff assault, yes.
15
             Okay. And do those happen with pretty good
16
   frequency in particular?
17
        Α.
             Yes.
18
             Is it fair to say that even when you have an
19
   offender in administrative segregation, serious events
20
   and escapes have occurred?
21
             Yes.
        Α.
22
             And, in fact, even inmates on death row have
23
   been able to escape from prison?
24
        Α.
             Yes.
25

- A. Yes.
- Q. Tell the jury who Juan Quintero was.
- A. He was in administrative segregation at the Stiles Unit, I believe, and he facilitated and established a relationship with a female on a cell phone.
 - Q. Okay.
- He ended up escaping, cutting through the 9 Α. fence, jumping over the fence, finding an unlocked 10 11 vehicle, going to a hospital and trying to get 12 treatment, but he did not want to fill out the paperwork. So, he left the hospital. He called the 13 14 girlfriend that he had facilitated this established 15 relationship with and caught up with her, but he was 16 eventually captured five days later.
 - Q. Okay. And are you familiar with David Puckett?
 - A. Yes. He was at the Polunsky Unit. Him and five other -- well, it was five G-3 offenders went to a church service. And on their way back from the church service they attempted to jump the fence. They made it all the way to the outer perimeter fence and the picket officer fired upon them and they were captured, but they did make it to the outer perimeter fence.
 - Q. And the other inmate that we talked about from

```
Stiles actually made it all the way to Nebraska, didn't
1
2
   he?
3
            He was gone five days. I didn't know where he
        Α.
   went, but I knew he was gone five days, yes.
4
            Would you agree with me, Ms. Fiveash, that
5
   despite the precautions that you take there at TDC, if
6
   an individual is an individual who has a violent nature
7
   they can find a way?
8
        Α.
             Yes.
10
                 MS. TISE: I will pass the witness.
11
                 THE COURT: Mr. Cornelius.
12
                        CROSS-EXAMINATION
   BY MR. CORNELIUS:
13
14
             Would you spell Fiveash for the record, please?
        Q.
15
        Α.
            F-i-v-e-a-s-h.
16
             Okay. Ms. Fiveash, my name is Skip Cornelius.
        Q.
17
   I'm one of the defense lawyers in the case. We've never
18
   met or discussed this case before, have we?
19
            No, sir.
        Α.
20
        Q.
             Okay. A few questions for you. Have we left
21
   out any nightmare scenarios in this conversation?
22
        Α.
            No, sir.
23
             In general, what is your opinion as to the
24
   competency of whether TDC is competent or not in
25
   handling of inmates?
```

```
Competent of handling inmates?
1
        Α.
2
        Q.
            Yes.
             I feel that we do a very good job. We try to
3
        Α.
   provide safety and security for both our staff and the
   outside world, yes.
6
            Are there also statistics as to different
7
   states and their prison units?
            Yes, sir, but I'm not a keeper of the
8
        Α.
   statistics.
10
        Q. All right. Well, do you have any reason to
11
   think that there is anything lacking -- not that it's
12
   perfect, because nothing is perfect, but anything
   lacking at TDC in terms of their ability to deal with
13
14
   the inmates?
15
        A. No, sir.
16
            You have to answer all these questions that you
   are asked.
17
          Yes, sir.
18
        Α.
19
             Have you given up on your job?
        Q.
20
        Α.
            No, sir.
21
             Do you have a vote of confidence or no
        Q.
22
   confidence to other people that work at TDC?
23
        Α.
            No, sir.
        Q. Confidence?
24
```

A. Yes, sir, I have confidence.

25

```
All right. Over the years just about
1
        Q.
2
   everything imaginable has happened at TDC, I guess?
            Yes, sir.
3
        Α.
            Including crimes that guards have committed on
4
   inmates?
5
        Α.
            Yes, sir.
6
7
            This G-3 prediction for Obel Cruz-Garcia, where
        Q.
   did that come from?
8
            If he has over a 50-year sentence, that's why I
        Α.
   told her G-3. That's what custody they go to if their
10
   sentence is over 50 years. As I explained to her, I
11
12
   can't say that's what he's going to do until he is
13
   convicted and I see the paperwork.
            Okay. If you thought there was any reason at
14
        Ο.
15
   all to give him a G-4 or G-5, would you do it?
16
            I would have to look at his jail history. If
   he has an extensive assaultive jail history, then I
17
18
   would recommend G-4; but if he has no history
   whatsoever, he would be G-3.
19
20
        Q.
            Okay. All right. Now, if somebody gets to
21
   prison in any of these categories, G-1 through 5, and
22
   they start having problems in prison, then what happens
23
   to them?
24
            If they receive disciplinary action and are
   proven guilty that they have been assaultive, then we
25
```

```
review them for a more restrictive custody.
1
2
            And by that do you mean on the G-1 through 5
   level or administrative seg.
3
 4
        A. Administrative segregation or G-4 and G-5, yes.
            Okay. So, are you -- is administrative
5
        Ο.
   segregation above G-5?
6
7
            No, sir. That's progressive. If he gets a
        Α.
   disciplinary, it depends on the extensiveness of his
8
   assault whether he is going to go G-4 or G-5 or
   administrative segregation.
10
11
        Q. How about somebody in G-3?
12
            G-3? He would -- progressive disciplinary. It
        Α.
   depends on the level of his assault whether he would go
13
   G-4, G-5, or administrative segregation.
14
15
        Q. Okay. So, somebody that gets placed in
   administrative seg, I guess, they can get placed on any
16
17
   of those levels, right?
18
        Α.
            Yes.
            Depending on what their violation is?
19
        Q.
20
        Α.
            Yes, sir. If they have proven to be a security
21
   risk or an escape risk, then they could be placed in
```

I mean, let's say that you place them wherever

you place them, G-1 through 5, and they do well for a

while but then they get in trouble. If they get in

enough trouble, they can go straight from G-1 through 5
1
2
   into administrative seg, right?
            Yes.
3
        Α.
        Ο.
            What is administrative seq?
 4
            Administrative segregation is a place that we
5
   put offenders that pose a security threat to either
6
7
   offenders or staff or an escape risk.
            Okay. And what does it mean? What's the place
8
        Q.
   like?
10
            What is the place like? They are in a cell all
11
   by themself. Everywhere they go they're shackled and
12
   they're escorted by an officer. Their rec is in an
13
   individual caged area where they can play basketball.
14
            By themselves?
        Q.
15
            By themselves. They do not get contact visits.
        Α.
16
            So, no matter where they are in the prison
        Q.
17
   system, if they -- if their conduct is really bad, they
18
   can be sent to administrative seg and not be around
   anybody other than other quards, right?
19
20
        Α.
            Yes, sir.
21
            And y'all don't hesitate to do that if it's
        Q.
22
   called for, correct?
23
            No, sir. We are not going to risk the safety
24
   of other offenders or staff.

clearly bad people at TDC that violate these rules, the

         Yes, sir. Staff and offenders alike, yes, sir.
    Α.
         Are you trained to indicate to the jury that
this is hopeless and they ought to just -- if they ever
have an opportunity to be on a capital murder jury kill
everybody that they can kill because y'all can't handle
them?
         No, sir.
    Α.
         You are not saying that at all, are you?
    Q.
        No, sir.
    Α.
         Okay. These men in the pickets, if they see an
    Q.
inmate trying to get over the walls, they just shoot
them, don't they?
         They give them orders to stop first. And if
they fail to stop and they start to make it over the
outer perimeter fence, yes, they have access to shoot
the offender, yes.
    Q.
         And the guards with the rifles out on the
horses out in the fields, the reason they have the rifle
is to shoot an inmate if they have to?
         If they have to, yes.
```

And all of that has happened, too, hasn't it?

```
All right. The privileges that these inmates
1
        Q.
2
   have -- well, I call them privileges. Are they
   privileges, like commissary and visitation and stuff
3
   like that?
4
             Yes.
5
        Α.
             I mean, they have to earn those, right?
 6
7
             No, sir. He has the privileges, but he loses
        Α.
8
   them through his actions, yes.
9
             Okay. Are they valuable to the inmates?
        Q.
10
             I would say so, yes.
11
             An inmate that has commissary, I mean, as part
        Ο.
12
   of your research, education, and on-the-job training and
   all, has it -- is it your opinion that the inmates don't
13
   want to lose that?
14
15
             I would say so, yes.
        Α.
16
        Q.
             And just taking away the commissary can be a
   really serious punishment for an inmate, right?
17
18
        Α.
             Yes.
             And the same with their visitation privileges?
19
        Q.
20
        Α.
            Yes.
21
             And with respect to contact visitation, do all
        Q.
22
   of the inmates get contact visitation immediately as
23
   soon as they get to prison?
            Yes.
24
        Α.
25
        Q. And on every level, I guess, except
```

```
administrative seg?
1
2
        Α.
             Except G-4 and G-5.
3
             G-4, G-5, and administrative seg?
        Q.
 4
        Α.
             Yes.
             Okay. So, if they have violations, they are
5
        Q.
   going to lose that, too, right?
6
7
        Α.
             Yes.
             And it's your training and experience that
8
        Q.
   that's important to the inmates also?
10
        Α.
             Yes.
             Is there a -- do you have some criticism that
11
12
   you can offer today of TDC or how it can get better or
   what more they can do for the inmates for their
13
   protection and the other people?
14
15
        Α.
            No, sir.
16
             I mean, are you satisfied that y'all are doing
17
   the best you can?
18
             Yes, sir.
        Α.
19
             How many times have you testified in trials
        Q.
   like this?
20
21
             Like this? This is my first one.
        Α.
22
             Okay. And did you know most of the questions
23
   that the prosecutor was going to ask you? Did she tell
   what she --
24
25
        A. Prior to this? No, sir.
```

```
So, I want to give you -- kind of give you a
1
        Q.
2
   chance to explain. Did you feel like you were making
   any kind of admission to this jury that TDC just can't
3
   handle its business or can't handle the inmates?
             I wouldn't do that, sir. I love my job.
5
            Well, is it true?
 6
        Q.
7
             I want them to understand the differences
        Α.
   between the custody so that they understand that, but as
8
   far as sway them either way, I don't intend to do that
   at all.
10
11
        Ο.
             Okay. I guess the fear from our standpoint
12
   might be that through your testimony the jury is getting
13
   the impression that it's just too dangerous to send
   anybody to TDC.
14
15
        Α.
            No, sir.
16
             These situations that -- these catastrophic
        Ο.
17
   situations that occur at TDC, even though they have
18
   occurred there these are not the normal things that
   happen at TDC, are they?
19
20
        Α.
            No.
21
        Q.
             Has there ever been another guard that's been
22
   hit by a car and killed on a horse?
23
            Accidents happen.
        Α.
24
        Q.
            Has that ever happened before?
25
            No.
        Α.
```

```
How many units are there at TDC?
1
        Q.
2
            Approximately 115. We've had some closures
   recently, so approximately 115.
3
        O. 115 or 150?
4
5
        Α.
             115. Sorry.
6
             So, 115 units. You don't have to apologize
7
   because I can't hear.
                 And how many inmates?
8
9
             I couldn't give you that right now off the top
        Α.
   of my head. I'm not real good at statistics. I'm
10
11
   sorry.
12
        Q.
            Let's -- maybe we can sort of predict it a
   little bit.
13
14
        Α.
             Okay.
15
             Give me the sizes -- not every one, but --
        Q.
16
            Maximum security is anywhere from 2400
17
   offenders. And 1,000 bed facilities also. So, you are
18
   looking at approximately 130,000 offenders, maybe.
19
             Okay. 130,000 offenders?
        Q.
20
        Α.
             Doesn't quote me on that, but...
21
             Okay. That's an estimate?
        Q.
22
             Estimate, yes, sir.
        Α.
23
             So, 115 units, approximately 130,000 inmates?
        Q.
24
        Α.
             Growing every day.
25
             Big job?
        Q.
```

```
1
        A. Yes, sir.
2
                 MR. CORNELIUS: Let me have just a moment,
3
   if I might, Judge.
                 THE COURT: Yes.
 4
5
                  (Pause)
6
             (By Mr. Cornelius) When was the Juan Quintero
   incident?
7
             I don't know, sir.
8
        Α.
            How long have you worked there?
        Q.
             How long have I been with TDC? Twenty-one
10
11
   years, but I can't give you an exact date.
12
             Was it since you've worked there?
        Q.
13
        Α.
            Yes.
14
           He made it out five full days?
        Q.
15
        Α.
            Yes, sir.
16
             Is there more than one level of administrative
        Ο.
17
   segregation?
18
             Yes, sir. There is three.
        Α.
19
             Okay. Explain those. Somebody goes to
        Q.
20
   whatever the first level is, what is that?
21
             So, 3 is when they've got a disciplinary within
        Α.
22
   the last 90 days, 3-A, and they progress to 2-A.
23
   then 1-A is the best in administrative segregation where
   they don't have any disciplinary.
24
25
        Q. Okay. But are they in the same -- is it the
```

```
same lockdown?
1
            Yes. They have different levels. You have
2
   different cell blocks. You have cell blocks for 3-A and
3
   then you have cell blocks for 2-A and then the rest are
4
   1-A. Yes, sir.
            Okay. That's what I was thinking. But other
6
7
   than different cell blocks, that means they're in a
   different location?
8
        A. Yes, sir.
            But is the lockdown procedure the same?
10
        Ο.
11
            Yes, sir.
        Α.
12
        Q.
            Twenty-three hours a day, no contact except
   with quards?
13
14
        Α.
            Correct.
15
            And the length of time for administrative seg,
   is it set, how they make these various levels?
16
17
            That's another one of our job duties. We go
        Α.
18
   and see them every six months to review their possible
   released from administrative segregation back to general
19
20
   population depending on their behavior if they are in
21
   there for disciplinary infractions, yes.
22
            Okay. All right.
        Q.
23
                 MR. CORNELIUS: I'm going to pass the
24
   witness, Judge.
25
                 THE COURT: Anything further, Ms. Tise?
```

```
1
                 MS. TISE: No, Your Honor.
2
                 THE COURT: May this witness be excused?
3
                 MS. TISE: Yes.
4
                 THE COURT: You may step down, ma'am.
5
   Thank you very much.
6
                 THE WITNESS: Thank you.
7
                 THE COURT: Please call your next.
8
                 MS. TISE: Judge, we need to approach.
9
                 THE COURT: Okay.
10
                 (At the bench, on the record)
11
                 MS. TISE: We have the print guy here ready
12
   to go, so I'd like to go ahead and do that.
13
                 (Open court, defendant and jury present)
14
                 THE COURT: Let's take a 10-minute break.
                 THE BAILIFF: All rise.
15
16
                 (Recess)
17
                 (Open court, defendant and jury present)
18
                 THE COURT: Please be seated.
19
                 We're ready to proceed in Cause
20
   No. 1384794. And Mr. Obel Cruz-Garcia is present at
21
   counsel table with his lawyers. The prosecution is
22
   present. And the jury is present in the courtroom.
23
                 You may call your next witness.
24
                 MS. TISE: The State calls Diana Garcia.
25
                 THE BAILIFF: Your Honor, the witness has
```

```
been sworn and testified previously in this trial.
1
2
                 THE COURT: Thank you, Deputy Perry.
3
                 You may proceed, Ms. Tise.
 4
                 MS. TISE: Thank you, Judge.
                          DIANA GARCIA,
5
   having been first duly sworn, testified as follows:
6
7
                       DIRECT EXAMINATION
   BY MS. TISE:
8
            Ma'am, are you the same Diana Garcia that
        Q.
   testified in the trial last week?
10
11
        Α.
            Yes, ma'am.
12
            And I want to talk to you this afternoon about
   some different things than we were able to talk about in
13
   the quilt phase of the trial. Okay?
14
15
        Α.
             Okay.
16
             First of all, tell the jury where you are
17
   living now.
18
             I live in Rio Grande City.
        Α.
19
            And how long have you lived there?
        Q.
        A. Ever since '94.
20
21
             Okay. And do you have some family members here
        Q.
22
   in Houston?
23
        Α.
           Yes, ma'am.
24
             Is it fair to say that almost all of your
25
   family still lives here in Houston?
```

```
1
            Yes, ma'am.
       Α.
2
            And a lot of those family members have been
       Q.
  here throughout the trial, right?
3
            Yes, ma'am.
4
       Α.
            And can you tell us who some of the ones who
5
  are here now are?
6
7
```

- My daughter, Rosalinda. Α.
- 8 Q. Okay.
- My son, James. And my common-law husband, Α. Arturo. 10
- 11 Ο. And Rosalinda and James are Angelo's brother 12 and sister, are they not?
- 13 A. Yes, ma'am.
- 14 Okay. You've also had some other family 15 members here throughout the trial who can't be here 16 right now.
- 17 My sisters. One of them got sick. The other 18 one is taking care of her.
- 19 Okay. What are their names? Q.
- 20 Α. Benny is the Godmother, the one that got sick.
- 21 Dora is my other sister. Stella, my youngest sister.
- 22 And they were here.
- 23 They have all been here at various times 24 throughout the trial?
- 25 A. Yes, ma'am.

```
And some of their extended family, children,
1
        Q.
2
   have been here as well, right?
3
            Yes, ma'am.
        Α.
            When Angelo was born, about how old were you?
 4
        Ο.
5
            About 30, 33.
        Α.
6
             Okay. And how was that different from when
7
   Rosalinda and James were born?
             I grew up with Rosalinda and James. I was a
8
        Α.
   little girl myself.
10
            When you had them?
        Q.
11
            I was very -- I was the seventeenth, eighteenth
12
   years. Rosie and James are like three years apart.
        Q. Okay. And when you had Angelo, you were a
13
14
   little older?
15
        Α.
           Yes.
16
            You've had been kind of through some of that
   child-raising stuff?
17
18
            Yes.
        Α.
19
           Was he a surprise?
        Q.
20
        Α.
            Yes.
21
             Okay. And what kind of relationship did you
        Q.
   have with Angelo, Sr.?
22
23
            A very good one.
            And after you and Angelo, Sr. separated -- and
24
        Q.
25
   I understand you were pretty much a child when you
```

```
1
   married him.
 2
        Α.
             Yes.
 3
             After y'all separated, did Angelo and Angelo,
        Q.
   Sr. continue to have a very close relationship?
 4
 5
             Yes, ma'am.
        Α.
 6
             How often would he see his father?
        Q.
 7
             On weekends.
        Α.
             Was that pretty regularly?
 8
        Q.
 9
             Very regular.
        Α.
10
             And did he enjoy going to see his dad?
        Q.
11
        Α.
             Yes, ma'am.
12
        Q.
             What happened to Angelo, Sr.?
13
        Α.
             He passed away.
14
             Okay. Was he ever able to see the person who
        Q.
15
   killed his son be brought to justice?
16
             No, ma'am.
        Α.
17
             When he died, did he know that someone had been
        Q.
18
   charged?
19
             No, ma'am.
        Α.
20
        Q.
             That all happened after he died?
21
           Yes, ma'am.
        Α.
22
             And what do you think about that?
        Q.
23
                  MR. CORNELIUS: Judge, I'm sorry, but I'm
24
   going to have to object. I don't see the relevance in
25
   this.
```

```
1
                 THE COURT: That's sustained.
2
             (By Ms. Tise) Over the years in your contact
   with Angelo, Sr., was what happened to Angelo, Jr.
3
   something that appeared to create a lot of emotional
4
   problems for him?
             Yes. He was drinking a lot.
6
        Α.
7
             Okay. And that was a problem?
        Q.
            Very much so.
8
        Α.
9
            And do you believe that stemmed from what
        Q.
   happened to Angelo?
10
11
        Α.
            Yes, ma'am.
12
             Is it fair to say it's something that he never
        Q.
13
   really got over?
14
            No, he never got over it.
             Tell us a little bit about what kind of little
15
        Q.
16
   boy Angelo was.
17
            Very friendly, very loveable, outspoken. He
18
   had lots of friends. People that I didn't even know
   were his friends. He played a lot. He liked to bike
19
20
   ride.
21
             Some people say there are certain types of
22
   people that never met a stranger. Would you say Angelo
23
   was that kind of little boy?
24
        Α.
            Angelo -- he would talk to anybody and
25
   everybody, even the cops. He got ran over.
```

- And tell us about that. Q.
- 2 There was a guy that he was out of jail and my son was bike-riding and he ran over him. Baby Angelo
- 4 was in the hospital.
 - When was this? Ο.
- I can't remember. It was like two years before 6 7 this happened.
 - Q. Okay.

1

3

5

8

- He stopped an officer at the store and he told 9 Α. him that he had been in the Life Flight. 10
- 11 Ο. The helicopter?
- 12 And I told Angelo: What are you doing? Α. Ι'm 13 talking to my new friend. He just met the policeman and he was his friend. And I said: Daddy, you can't talk 14 15 to everybody. He said: Yes, I can.
- 16 Did Angelo -- was he a generous little boy? Q.
- Yes, ma'am. 17 Α.
- 18 And do you remember some examples of that? 0.
- 19 A lot of things. He was very nice. He wanted
- 20 to be loved. He played a lot. He got along with
- 21 everybody. He would come and tell me: Mommy, make
- 22 tortillas for my friends. Mommy, do this for them.
- 23 Mommy, do this for this other person. I would say:
- 24 Baby Angelo, please. He would just hug me on the back
- 25 and cuddle himself all over me in the back. You can do

```
it; for me, you can do it.
1
2
                 MS. TISE: May I approach?
3
                 THE COURT: Yes.
             (By Ms. Tise) I'm going to show you some items.
4
        Ο.
   First of all, State's Exhibit 80. I'll ask you if you
5
   recognize that picture (indicating)?
6
            Yes, ma'am. This was his last picture right
7
        Α.
8
   after my birthday.
             Okay. And State's Exhibit 81, who is that with
        Q.
   Angelo in that picture?
10
11
        Α.
             This is me with him.
12
            And do you know when that was taken?
        Q.
13
        A. He was about three years old.
14
        Q.
            Okay.
                 MS. TISE: At this time, I'm going to offer
15
16
   State's Exhibits 80 and 81.
17
                 (State's Exhibit No. 80 and 81 Offered)
18
                 MR. CORNELIUS: No objection.
19
                 THE COURT: State 80 and 81 will be
20
   admitted without objection.
21
                 (State's Exhibit No. 80 and 81 Admitted)
22
             (By Ms. Tise) And this is the one that you said
23
   was his last picture taken after your birthday
24
   (indicating)?
25
        A. Yes, ma'am.
```

```
And State's Exhibit 81. He did have some
1
        Q.
2
   really blue eyes, didn't he?
3
        Α.
           Very.
            I'm going to show you what's been marked as
4
   State's Exhibit 131, and ask you what this is
5
6
   (indicating)?
7
        Α.
            I know what that is. Those are Baby Angelo's
   school things. His tennies.
8
            And have you pretty much kept it in tact all of
        Q.
   this time?
10
11
        Α.
            I gave it to my sister, Doris, to save for me.
12
            And, basically, left it like he left it?
        Q.
            Yes.
13
        Α.
           And you said he's got his tennies in here. Are
14
        Q.
   these his little tennies (indicating)?
15
16
            Yes, ma'am.
        Α.
17
            Did he also have some of his pictures that he
18
   drew and his little Batman coloring book?
19
        A. Yes, ma'am.
20
                 MS. TISE: At this time, I'll offer State's
21
   130 and its contents.
22
                 (State's Exhibit No. 130 Offered)
23
                 MR. CORNELIUS: No objection.
                 THE COURT: State's 130 is admitted without
24
25
   objection. It's 130; is that correct?
```

(State's Exhibit No. 130 Admitted)

- Q. (By Ms. Tise) Diana, what kind of relationship did you have with Angelo as his mother?
- A. He was adorable. He was my whole world. I loved him. I loved him a lot. I still do. I still miss him. I still dream of missing him. It's as if he
- 7 is still alive. I can still feel him.
- Q. And when you picture Angelo, how do you picture him?
- 10 A. Very loving.
- 11 Q. Can you see him as an adult?
- 12 A. No, I can't. I still see him as my baby.
- 13 Q. How has your life changed since you lost
- 14 | Angelo?

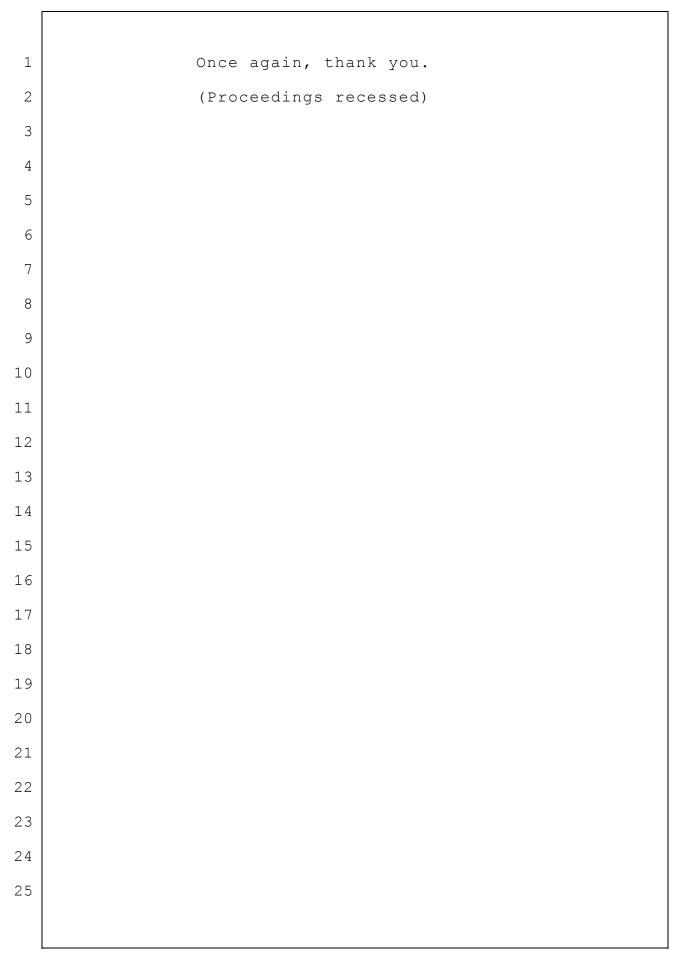

1

- 15 A. A lot. Nothing was the same afterwards. It 16 was a big, big piece out of me taken.
- Q. Did your relationship with your family change?
- A. Not with my daughter and son, but with my other family, I distanced because I was so afraid they would
- 20 come back and do the same to my other two kids.
- Q. Why did y'all end up moving so far away from all of your family?
- A. I figured the further away the better. It was
 because every little thing that's here in Houston, there
- 25 | are memories. I lived in Stafford, I lived in Houston.

```
He used to love to go to the pony rides on Main Street.
1
2
   He wanted to go here, there. He wanted to go to the
   zoo. He wanted to do a lot of things, things that I
3
   can't see anymore.
             What kind of affect did it have on Arturo?
5
6
             He's had almost the same affects as me.
7
   still can't get over it.
            Has he changed?
8
        Q.
9
        Α.
            Yes.
10
            How --
        Q.
11
            Very much.
        Α.
12
        Q.
           How has he changed?
            Arturo is very a loving, loveable man,
13
   friendly. Now he sees people the way they are, not
14
15
   friendly like me. He reads the way people are.
16
   don't. I see everybody friendly like my baby Angelo, no
17
   wrongdoing.
18
            But Arturo is skeptical about people?
        0.
19
            Now he is.
        Α.
20
        Q.
            Diana, is it fair to say you've had to deal
21
   with a lot of regrets and a lot of guilt?
22
        Α.
             Yes.
23
             Tell the jury about that.
24
        Α.
            I regret ever meeting this man. I didn't think
25
   he would ever, ever do something like that. We trusted
```

```
We thought he was our friend, him and his wife.
1
2
   We treated them like friends, especially me more than
   Arturo. I didn't think he ever would do something that
3
   bad to me because this is all on me. He raped me. He
   took my son away from me. He hurt me very much. And I
5
   didn't hurt him. I didn't do anything to him.
6
7
            As you go through your day-to-day life, are you
8
   ever able to put what happened that night behind you?
        A.
            No, ma'am.
9
            Tell the jury about that.
10
        Q.
11
        A. I can't put it behind me. I wish I could, but,
12
   no. He is present day-by-day in my heart, in my
   feelings, my memories. Everything, it's about my baby.
13
   I grew up with my other two, but I knew what I had with
14
15
   Angelo. I knew I loved babies and I had him in my hands
16
   and I raised him. Ever since I came out pregnant, I was
   a small woman and my baby weighed 10 pounds, almost 10
17
18
   pounds.
        Q. He was a big baby, huh?
19
20
        Α.
            And my other two babies were 5 pounds. This
21
   one was double. I wanted to have a baby so bad. I did
22
   have one for six-and-a-half years. That's all I had him
23
   for.
24
        Q. Thank you, Diana.
25
                 MS. TISE: I will pass with the witness.
```

```
THE COURT: Thank you, Ms. Tise.
1
2
                 Mr. Cornelius.
                 MR. CORNELIUS: No questions, Judge.
 3
                 THE COURT: May this witness be excused?
 4
                 MR. CORNELIUS: Yes, Your Honor.
 5
                 MS. TISE: Yes, Your Honor.
 6
7
                 THE COURT: Ms. Garcia, you may step down.
8
   Thank you very much.
                 THE WITNESS: Thank you.
                 THE COURT: State, call your next.
10
11
                 MS. TISE: The State rests.
12
                 THE COURT: Folks, at this time, I believe
13
   we're going to break for the day. I told you we'd work
   till 6:00, but I think this is a good time to break.
14
15
   The State is resting their case. And we have had a long
   day. So, let's step out and we'll return at 10:00 in
16
17
   the morning and we'll proceed with the case for the
18
   defense.
19
                 THE BAILIFF: All rise.
20
                 THE COURT: I'm sorry, Deputy.
21
                 Before you leave, let me make sure I remind
22
   you that you should not talk amongst yourselves or with
23
   anyone else on any subject connected with the trial or
24
   to form or express any opinion thereon until the end of
25
   the trial.
